### EXPLAINED Bumpy road ahead **GROWTH IMPERATIVES** and need to create jobs weigh heavy on the government's mind with elections in over a dozen states in the next 12-18 months. Instead of sharp rate hikes to contain inflation, policymakers would rather let the rupee depreciate.

"How long?" asked the CEO of a foreign institutional investor (FII), who did not wish to be named. While sustained high inflation of 7 per cent plus has prompted the RBI to hike policy rates, the government is keen to preserve GDP growth and create more jobs as several big states head for polls over the next 12-18 months.

With several agencies cutting the GDP growth forecast to 7 per cent and lower, the Union finance ministry is in a dilemma whether an aggressive tightening of the monetary policy is the CONTINUED ON PAGE 4

### **AMBASSADOR DENIS ALIPOV** India-China border standoff a bilateral matter, we will stay away: Russia envoy

### SHUBHAJIT ROY NEW DELHI, SEPTEMBER 23

THE RUSSIAN ambassador to India, Denis Alipov, said on Friday that the border standoff between India and China is a "bilateral matter" between the two countries in which Russia did not want to get involved. He took a swipe at the US-led West on the issue, saying it was encouraging suspicions between India and China.

Alipov also reacted to French

### **CAUTIONS AGAINST 'CONSPIRACIES' Urban Naxals and** some global bodies blocking infra: Modi

### **EXPRESS NEWS SERVICE** NEW DELHI, SEPTEMBER 23

PUSHING FOR speedy environmental clearances for infrastructure and developmental projects. Prime Minister Narendra Modi Friday blamed "Urban Naxals" and "some global institutions and foundations" for stopping "modern infrastructure" projects that can raise the standard of living of people in the country.

He also cautioned against getting caught in the "conspiracies of such people" who, he said, have been able to influence "even the World Bank and higher judiciary".

The Prime Minister was adence hosted by Union Environfor state environment ministers

"I have seen that in the name of environmental clearance, how

the establishment of modern infrastructure is hindered. Where you all are today -- in Ekta Nagar is an eye-opening example of this. How Urban Naxals, those who are anti-development, had stopped such a big project, the

### Bombay HC allows Uddhav-led Sena to hold Dussehra rally at Shivaji Park

### **OMKAR GOKHALE** MUMBAI, SEPTEMBER 23

IN A setback for the Eknath Shinde-led ruling alliance in Maharashtra, the Bombay High Court on Friday allowed the Uddhav Thackeray-led Shiv Sena group to hold its annual rally, Dussehra Melawa, at Shivaji Park on October 5 – even as it pulled the Brihanmumbai up Municipal Corporation (BMC) for "abuse of power" in denying

permission for the gathering. Allowing the Uddhav-led Sena's plea to set aside the denial of permission, a division bench

of Justices Ramesh D Dhanuka and Kamal R Khata also directed the BMC to grant permission to the petitioner to use the venue for preparations and rally-related work from October 2-6.

Besides, the court directed the police to ensure adequate security arrangements while allowing them to record the event on video to check for violations if any by the petitioners, which be used as grounds for can CONTINUED ON PAGE 4 **ABHISHEK ANGAD** 

RANCHI. SEPTEMBER 23

THE ENFORCEMENT Directorate has informed a special court in Ranchi that it detected illegal mining of stones worth more than Rs 1,000 crore in Sahibganj district and adjoining areas of Iharkhand, all controlled by Pankai Mishra, the arrested MLA representative of Chief Minister Hemant Soren in the Barhait Assembly constituency.

The ED, in its prosecution complaint (the equivalent of a chargesheet) to a PMLA court, said Mishra even controlled installation of crushers and had a "fixed share in almost all mines" and transportation of material.

The court took cognizance of the prosecution complaint on Wednesday. The ED named three persons as accused: Pankaj Mishra, his associate Bacchu Yadav, and Prem Prakash who allegedly laundered the proceeds gained through illegal mining -

all three are in judicial custody. In its complaint, the ED said the accused were party to activ-

ities relating to "acquisition, possession, use, concealment, and projection of the proceeds of ime as untainted'

The ED complaint cited harkhand Mukti Morcha's former treasurer Ravi Keiriwal's statement in which he said that at a meeting once, the "CM" directed Mishra to directly "hand over the funds" coming from stone and sand mining in the Santhal Parganas to Prem Prakash who, in turn, would hand over the

money to a businessman. On July 17, two days before Mishra's arrest, the JMM, at a press conference, had said that the ED was trying to "harm CM Soren's image". The party said the ED should disclose the names of Mishra's associates and the seizures made.

The ED has so far conducted 47 searches as part of its investigation. In Sahibganj district alone, **CONTINUED ON PAGE 4** 

PAGE 1 ANCHOR 93 of top 100 JEE (Advanced) toppers seek entry into IIT Bombay

#### **PALLAVI SMART** MUMBAI. SEPTEMBER 23

THE INDIAN Institute of Technology (IIT) Bombay continues to be the top choice among prospective IIT students with 93 of the top 100 candidates on the JEE-Advanced merit list opting for the premier institute as their first choice, while six opted for IIT-Delhi and one for IIT-Madras.

Of the top 100 candidates, after the first round of seat allotments, 69 eventually bagged a seat in IIT-Bombay. IIT-Delhi is a distant second, with 28 of the top 100 bagging a seat here, fol-

The findings are in line with the trend of previous years. Last year, 62 of the top 100 JEE (Advanced) rank-holders got into IIT-Mumbai, up from 58 in 2020 (see box)

Computer Science is the overwhelming choice among the top 100, with 99 of them opting for the stream. Of the 69 top rank-holders who bagged seats in IIT-Bombay, 68 got into Computer Science and 1 in Engineering Physics (the candidate had opted for the stream as first preference).

The Joint Seat Allocation Authority (JoSAA) on Friday released the first of six allotment lists, setting off the counselling process

> Prof Suryanarayana Doolla, who teaches at IIT-Bombay and is the organising chairman for IEE Advanced 2022, said that while the maximum number of preferences are for IIT-Kharagpur "due to the sheer number and variety of courses it offers, IIT-Bombay remains the most preferred choice of institute by top 100 JEE-Advanced rankers and largely for Computer Science & Engineering".

Apart from Computer

Allotment lists released, stage set for counselling process. File

Science & Engineering, Electrical Engineering and Mechanical Engineering are the other

sought-after branches that have seen a high number of applications, he said.

THOSE WHO GOT Into IIT Bombay							
<b>Top 50</b>	<b>Top 100</b>						
2018 47							
42	62						
41	58						
2021 42 62							
2022 49 69							
	Top 50 47 42 41 42						

The preferences of the top 100 are reflected among the top 500 JEE-Advanced rankers too while 173 of them have found a seat in IIT-Bombay, 127 have got students, which comes in handy as engineering is about knowledge application. Apart from this, our extra-curricular activities also provide a great platform for students," he said.

On Computer Science being the overwhelming stream of choice among the top rank-holders, IIT-Bombay Director Prof Subhasis Chaudhuri said it is seen as a "quick-result branch" among the youth

### Looking for peace with all neighbours including India: Pakistan PM at UN

PRESS TRUST OF INDIA UNITED NATIONS, SEPT 23

PAKISTAN IS looking for peace with all its neighbours, including India, but sustainable peace and stability in South Asia remain contingent on a just and lasting solution to the Kashmir issue, Pakistan's Prime Minister Shehbaz Sharif said here on Friday. In his address to the high-

level UN General Assembly session, Shehbaz claimed that India's actions on August 5, 2019 to change the special status of Iammu and Kashmir further undermined the prospects of peace and inflamed regional tensions.

"Pakistan needs a stable external environment. We look for peace with all our neighbours, including India. Sustainable peace and stability in South Asia however, remains contingent upon a just and lasting solution of the Jammu and Kashmir dis-

pute," he said. "I think it is high time that India understood this message loud and clear that both countries are armed to the teeth. War floods and outburst of clouds."

Sitharaman hits out at

NCP in stronghold

### is not an option. It is not an option. Only peaceful dialogue can resolve these issues so that the world becomes more peaceful in

time to come," he said. India has repeatedly told Pakistan that Jammu and Kashmir "was, is and shall forever" remain an integral part of the country. India has said it desires normal

neighbourly relations with Pakistan in an environment free of terror, hostility and violence. The ties between India and Pakistan nosedived after New Delhi abrogated Article 370 of

the Constitution. India's decision evoked strong reactions from Pakistan, which downgraded diplomatic ties and expelled the Indian envoy.

Shehbaz said the Pakistani people have always stood by Kashmiris in complete solidarity and will continue to do so.

He said he will be forthcoming to talk to "our Indian counterparts" to pave the way forward for the future so that "our generations do not suffer, so that we spend our resources on mitigating miseries, on building structures to face these

According to RBI's monetary policy report of April 2022, a 5 per cent depreciation in rupee could result in inflation edging up by 20 basis points while the GDP growth could be higher by 15 basis points. In 2022 so far, the rupee has depreciated by 8.2 per cent in 2022 against the US dollar. Policy makers in New Delhi seem to be veering around the view that the RBI should not hold any particular level sacrosanct. "This (gradual weakening of rupee) covert measure is better than an overt monetary policy action of hiking rates," said a policy maker who did not wish to be named.

"Even today, the rupee closed above 81." said a senior executive in an FII, pointing to the central bank's aversion to let the rupee

police and within 24 hours all three accused were arrested. Those arrested include main accused Pulkit Arya and two others.' In a video statement, Additional SP(Kotdwar) Shekhar Suyal said the case was forwarded

**BARAMATI, SEPTEMBER 23** 

AJAY JADHAV

WITHOUT TAKING any names. Union Finance Minister Nirmala Sitharaman on Friday hit out at the Nationalist Congress Party (NCP) and the Pawar family in their stronghold of Baramati Lok Sabha constituency, alleging

corruption born out of 'dynastic politics' and misuse of the cooperative sector by a few for political gain.

"It is dynastic politics that lead to corruption. We are against dynastic politics,' Sitharaman said at the BJP office in Baramati on Friday.

The NCP is a party of corrupt leaders and many have been or are in jail because of it, she said, adding that the BJP isn't like them. "We should go to people with the message that dynastic politics breeds corruption. The BJP unit of Baramati should

26/3 (Basement), Near B. Kumar Book Centre, Madonna Hotel, der Nagar, New Delhi-60. Contact: 9999663160, Email: adityadse@gmail.com

the party unit to focus on removing bogus voters from electoral rolls, "We want fair elections. So. identify bogus names and get them removed from electoral rolls," Sitharaman said. The BJP cadre should take the

Centre's schemes to the people and help eligible persons derive the desired benefits, she added. Addressing representatives

from the cooperative sector at a meeting later on Friday, Sitharaman, in an indirect reference to NCP chief Sharad Pawar, said there were people who, despite holding Union ministries and leading the cooperative sector, failed to introduce reforms that would benefit the poor. "The cooperative sector has been used for political gain till now. The Congress misused it for their

benefit," she alleged.

even today. Even today, there are playing games. Their lies have been caught out -- they are not willing to accept this and instead get political support from some quarters," he said.

The Sardar Sarovar dam was the focal point of the Narmada Bachao Andolan, which was spearheaded by Medha Patkar and Baba Amte along with groups of farmers, tribals, environmentalists and rights activists.

"To stop the development of India, many global institutions and foundations latch on to such issues and create controversies in collaboration with Urban Naxals - and our projects get stopped. Without compromising the protection of the environment, we need to think in a bal-

anced manner and not get caught in the conspiracies of such people who have been able to influence even the World Bank and the higher judiciary," he said.

"Our attempt should be that we should not unnecessarily use the excuse of the environment to create obstacles in the path of ease of living and ease of business," he said

In this context, the Prime Minister said "there are over 6.000 environment clearances pending and another 6,500 forest clearance applications for projects pending with the states".

"In this modern era, if clearances are given after three months, then the reason is something different. We should establish parameters and while protecting the environment, should bring speed in giving clearances," Modi said.

The Prime Minister further said that for a long time the Environment Ministry got shaped more as a regulator. "I think that the role of the Environment Ministry is more as a promoter of the environment rather than as a regulator," he said.

into the canal. He then pushed her into the canal "the SSP said

Other than Pulkit, those arrested are resort manager Saurabh Bhaskar and another person identified as Ankit, the SSP said.

Uttarakhand Chief Minister Pushkar Singh Dhami described the incident as "extremely sad and unfortunate", and said those responsible would be given "strict punishment".

SSP Yaswant Singh said the "accused have confessed". "They are saying they pushed the girl into the Chilla power house canal and that makes it a murder case. However, we are yet to recover the body. The FIR was initially registered under IPC section 365 (kidnapping). We have added IPC sections 302 (murder) and 201 (causing disappearance of evidence or giving false information).

Police teams are searching the canal, senior officers said, adding that the woman had allegedly gone missing from the resort on September 18, and that a missing person report was registered.

### Venkaiah

Narendra Modi. It's all because of some misunderstandings or may be out of political compulsion. Over a period of time, these misapprehensions will also be cleared and the Prime Minister also should often meet more and more sections of the political leadership on this side or that side," he said.

Urging the Opposition to be "open minded", he said, "We must all understand that we are only rivals, we are not enemies. Hum ek dusre ke dushman nahin hain."

All institutions, he said, should be respected. "All parties, they must respect each other. The institution of the Prime Minister, the institution of the President, the institution of the Chief Minister, all institutions, they should be respected. That has to be kept in mind by one

senior officials after new information came to light. "We found that what was

"Registration would enable the High Commission and the Consulates General to better connect with Indian citizens in Canada in the event of any requirement or emergency," the MEA said.

With 1.83 lakh Indian students pursuing education at various levels in the country, Canada is the second most popular destination for Indians pursuing academic degrees abroad.

MEA data shows that in the first six months of 2022, as many as 60,258 Indians went to Canada for education. -WITHPTI

### Violence during PFI strike in Kerala

Suspected PFI members, meanwhile, unleashed violence across several Kerala districts to protest the National Investigation Agency's (NIA) nationwide raids and arrests in connection with some outfit members' alleged support for terror activities.

In Kannur, suspected supporters of the strike flung explosives at an RSS office, a twowheeler rider and a truck. The RSS office at Mattannur was damaged, but no one was hurt.

New Delhi

the shutters of shops in Kannur. The angry residents handed one of them over to police.

Police said 170 people were arrested, 368 were taken into preventive custody and 157 cases were registered in connection with hartal-related violence.

The High Court bench said the call for the hartal by the PFI without following procedure, "contemplated in our earlier order of 2019, prima facie, amounts to contempt of the directions of this court".

seats for girls. The Joint Seat Allocation Authority (JoSAA) on Friday released the allotment list, the first of six rounds. According to IoSAA, this year, 16,598 seats were up for grabs across 23 IITs, including 1,567 supernumerary

"A total of 2,14,067 candidates registered for the seat allocation process through JoSAA this year, of whom 1,95,924 candidates have filled in their choices for seats in participating institutions," said Prof. Doolla.

### People living in constant fear, says Sibal at book launch

Kapil Sibal with Shashi Tharoor at the former's book launch in New Delhi on Friday. Anil Sharma

#### **ADITYA VADDEPALLI** NEW DELHI, SEPTEMBER 23

THERE'S GREED and lust for power in the country, and the present dispensation has all the investigation agencies, institutions and the police at its disposal, said senior lawyer, Rajya Sabha MP and former Congress leader Kapil Sibal as he launched

his anthology of poems, Reflections in Rhyme and Rhythm (Rupa Publications, 2022), on Friday.

In the collection of poems, Sibal explores the topics of politics, justice, truth, empathy and love. "We are here for a short time. In this short journey, what are you going to take with you? Nothing. You were born naked and you'll die the same way," he reflected on his book. "Poets have the ability to see reality as it is. Religion is about supposition. Philosophy is about proposition. Poetry is about the way we are. A poet sees something from near

and also from afar.' Highlighting the problems with the country's judiciary, Sibal said that most of the litigation in the court is between corporates. "Where will the poor man go to get justice? They don't have the money to fight court cases. How will people from the Northeast and the South reach the Supreme Court? They don't have the means. People have family disputes in rural areas. Who is going to solve those? The system has to

completely change. We need a set of rules and ideas.' "The police are in cahoots

#### with the politician and the local mafia. The truth is always hidden. If the investigation is not clean, the judge may not give you a result. The criminal justice system is much worse than the others. The real culprits are let off while the innocent people are implicated." Sibal, who was in

conversation with columnist and author Suhel Seth, said. Sibal added that religion has become a weaponised tool all

over the world and more so in India. "In India, the people involved in hate speech are collaborators of a particular ideology. The police is not ready to do anything because they are all collaborators. Whoever gives the speech is not prosecuted, and is emboldened to give another speech. In this process, the whole system of justice gets polluted. People are living in constant fear. We fear the ED, CBI, the state, the police - we fear everybody. We have no trust in anybody anymore," he said. Asked about his wish for a

united Opposition, the senior lawyer said that all the parties want to fight the current dispensation, but the architecture for that is still not in place. "There are no cross discussions happening between these parties. They are definitely trying to oppose the present regime but doing so in their own states," he said.

The veteran lawyer is working on a nonfiction book on what young lawyers should do when they enter the profession. Asked if this will be a guide, Sibal said, 'Calling it a guide will be incongruous with my personality."

### Install cardiac life support facility on premises: HC to govt

# **Court transfers Satyendar** Jain case to another judge

### ANAND MOHAN J NEW DELHI, SEPTEMBER 23

A DELHI court Friday transferred a money laundering case against Aam Aadmi Party leader Satyendar Jain to a new judge, observing that even though the judge hearing the case was an upright officer, "circumstances taken together are sufficient to raise a reasonable apprehension in the mind" of the Enforcement Directorate (ED).

Principal District and Sessions Judge Vinay Kumar Gupta allowed the ED plea to transfer the case from the court of Special Judge Geetanili Goel to Special Judge Vikas Dhull. Jain, meanwhile, moved the Delhi High Court challenging the order. On Friday afternoon, senior advocate Rahul Mehra, appearing for Jain, mentioned the matter before Chief Justice of the Delhi High Court Satish Chandra and Justice Sharma Subramonium Prasad for urgent listing.

Submitting that there is an urgency in the matter as the case before the Special Judge will be heard on a day-to-day basis, Mehra urged that the matter be listed on Monday, which the HC

Police chief calls for strategies to prevent riots

### MAHENDERSINGHMANRAL NEW DELHI. SEPTEMBER 23

**DELHI POLICE Commissioner** Sanjay Arora has asked six DCPs in the city to give a presentation on Friday on strategies to prevent communal riots in the national Capital. In a message to the six DCPs -- of North East. North. South East, Central, East and North West -- officer on special duty to the police commissioner, Manishi Chandra said on September 14, "CP, Delhi, has desired that these DCPs should give a presentation on strategies for prevention of fu-

ture riots. Focus areas for the presentation: human intelligence/infiltration, preventive detention suspect list, strengthening community resiliency and hotspot; micro-action plan."

On August 30, Union Home Minister Amit Shah and other officials visited Delhi Police head-

enjoyed the status of a minister and said that just because he did not hold any portfolio, does not mean he is no longer a minister.

The ED on Thursday told the court the judge did not consider that "he (Jain) can manage hospitals and jails as he held those portfolios as a minister". This was met with strong opposition by Jain's lawyers, who questioned where the country was headed if the agency couldn't trust its doctors and judges.

The ED had apprised the court that Jain had earlier applied for medical bail and got himself admitted to LNJP Hospital. He told the court that the agency had objected to any medical reports from the hospital considering that he was the minister of health and "the hospital was under his control and , things can be managed".

Additional Solicitor General S V Raju, who appeared on behalf of ED, had argued that Special Judge Goel "calls for the report of the very hospital which we had an objection for".

Senior advocate Kapil Sibal who appeared on behalf of Jain, had argued that the ED application was a mala fide plea. He said that no apprehension was put forth by ED before September 15 when the matter was being heard in its final stages.

something to the judge. And the judge is entitled to say you have not answered the question. Is the judge supposed to be a silent spectator? How is this a relevant fact? Judge also agreed when issues were controverted during submissions. Is this a ground for transfer?'

He added, "All this happened much prior. What is the bias that the judge may grant regular bail? Because judge didn't allow accused to be shifted to AIIMS or Safdarjung? This is a malafide application, to derail trial, to prolong my custody, to ensure their whims and fancies are agreed to, and send a message to the judiciary that if you don't agree to us, this is what will happen."

ED had arrested Jain in a case based on a CBI FIR lodged against him in 2017 under the Prevention of Corruption Act. Jain was accused of having laundered money through four companies allegedly linked to him.

In the past few hearings in the bail proceedings, Special Judge Goel had pulled up the agency over its probe in the case.

Sibal had argued.

THE DELHI High Court in a 2018 suo motu petition on requirement of basic life support systems in public places directed Delhi government to ensure that advanced cardiac life support facility (ACLS) is installed on High Court premises before December 6.

A bench of Justices Manmohan and Manmeet Pritam Singh Arora directed the government to explore the possibility of either stationing such ambulances at district courts or allowing the setting up of porta cabins with ACLS services at the courts.

On September 21, the Delhi government submitted a status report stating the availability of basic cardiac life support (BCLS) and ACLS facilities in district courts across Delhi. According to the report, ACLS facilities are unavailable at Saket, Dwarka, Karkardooma and Rouse Avenue courts. Dwarka district court, which neither has an ACLS or BCLS facility, will require completely new infrastructure and manpower to establish facilities, the report states.

During the hearing, the Delhi government counsel submitted

High Court Medical Committee for setting up ACLS facilities on the High Court premises. The court called upon Dr Kamal Jeet Singh Bansal, Chief Medical Officer and member of this committee, who stated that there is space available in Delhi HC for this. The court directed the committee to earmark space for setting up the services within two weeks. The court directed the Delhi Metro to explore the possibility of setting up the

the recommendation of the Delhi

ACLS services at all major interchange stations within six weeks. In previous hearings, the court

had directed the respondents, including Delhi government, railways and Delhi Metro, to file an affidavit indicating the steps taken to establish centres giving BCLS and ACLS.

I apother one. Hearing the commoproached senior officers, but aftion, a resident from the ground ter no action was taken. I decided to take legal recourse," Sonu, who floor intervened and asked what had happened. He said he was a uses only his first name, told The Major in the Army. He asked how Indian Express

A graduate from a private university in Rajasthan, Sonu said he had taken up work as a food delivery executive during the pandemic. "Uss samay halat kuch aisi thi...majboorithi(Circumstances were such that I was desperate for work). They were paying between Rs 20,000-30,000, so I took the job in July 2021," he said.

After the incident, he said he quit the job. "Kaam koi chota bada *nahi hota* (no work is big or small). But these high society people do not understand this. I quit the job that day, I couldn't bring myself to do it. It is about dignity and respect... I told him I will see him in court," he said, adding that he has now returned to his home town and works at his family's cotton farm.

On September 15, 2022, the chief judicial magistrate said in an order: "This court is of the considered view that it is a fit case for registration of FIR, in compliance of Section 156(3) CrPC. The contents of the complaint discloses commission of cognizable offence by the accused, for which... FIR under sections 323, 341 and 506 of IPC should be registered..."

An officer said the Armyman is not mentioned by name in the FIR. When contacted, he said the allegations against him were false. "I found out later that the complainant is not a delivery person,

the guard told me he made an unauthorised illegal entry using a fake card. He was asked by the tower guard to enter his details in the register and to follow Covid protocols. The guard said he refused to put on the mask and forcibly intruded into the lift. He started shouting and punched the

guard on his chest due to which he fell on the floor. I went to check as there was a lot of noise. When I was trying to calm him down, he pushed the guard again and moved his arm towards me to scratch mine. I got a deep cut on my arm and it was bleeding. I have attached medical report... police took stock of the situation."

He said that he, too, had filed a complaint with police but they didn't register an FIR "because I haven't approached any lawyer". He claimed this was a bid to defame him and extract money.

**EXPRESS NEWS SERVICE** NEW DELHI, SEPTEMBER 23

NEW DELHI. SEPTEMBER 23

DELHIITES COULD soon enjoy high-speed 5G network connectivity as work has begun to assess how infrastructure can be upgraded - from departments and buildings where smaller 'cells' sites can be put up to street furniture where smaller 'cells' can be installed to bolster the network.

Small cell sites are basically meant to enhance the network in areas with high density of mobile phones, such as the crowded Chandni Chowk market or a stadium that accommodates thousands or a Metro station like Rajiv Chowk.

Major agencies and departments such as the Delhi Police, Delhi Metro Rail Corporation (DMRC) and other departments which currently use 4G network will completely shift to 5G network once the project is rolled out.

Delhi L-G V K Saxena will chair a meeting on Tuesday on this front, expected to be attended by officials from the department of telecommunication, Delhi Police, Delhi Metro Rail

Sources said the L-G is set to give his nod for installing these in buildings of the Delhi Police, DMRC, NDMC and DDA. Archive

These need to be installed every 200 metres so that consumers from densely populated areas to upscale colonies - get highspeed network."

Sources said the L-G is set to give his nod for installing these in buildings of the Delhi Police, DMRC, NDMC and DDA, which come under him.

The Delhi government is ex-

pected to give permission for in-

stallation in departments and stretches that come under its jurisdiction. Infrastru

### BRIEFLY — **Body found in** underground water tank

New Delhi: A body was found in an underground water tank behind the Emporium Market Friday, police said. Maintenance staff found it when they came to clean the Central Public Works Department tanks and found the lock broken. Police said the body was highly decomposed and seemed to be around 40 years old and has been sent to a hospital for postmortem. Police also said that efforts were being made to identify the deceased.

### **PAVNEET SINGH CHADHA GURGAON, SEPTEMBER 23**

MORE THAN 140 mm of rain brought the Millennium City to its knees, with water inundating several roads and the expressway, throwing traffic into disarray.

Behind the mayhem, experts say, is a drainage infrastructure unable to withstand such a high intensity of rainfall in a short span. Gurgaon, which is located in the foothills of Aravallis, earlier had hundreds of water bodies, lakes and bunds (embankments) in low-lying parts, which acted as natural drainage columns by storing water and preventing flooding. Over the years, urbanisation

and concretisation have taken place either on top or in the route of natural drains, blocking the natural course of water. According to a report of district administration from 2018, Gurgaon had over 640 water bodies in 1956, which reduced to 251 by 2018. "From sectors 68 to 80, the

drainage network does not exist and in sectors 81 to 112 near NPR, only 60-70 per cent of the area has a drainage network. Often, the drainage lines are choked due to construction debris or encroachment and they do not have sufficient capacity to carry the heavy runoff during monsoons. If the drainage network is discontinuous, roads will be submerged with rainwater." said an urban transport systems design expert. Gurgaon's rainwater is dis-

posed of from three master stormwater drains – leg 1, 2 and 3 (Badshahpur drain), with the latter accounting for over 60 per cent of the drainage network. These master stormwater drains collect rainwater and channel it into Delhi's Najafgarh. Experts also said places such as Ghata, Chakkarpur, Nathupur, Kadarpur had natural drains and ponds, which acted as recharge zones, and over time, roads were built

#### over the natural drains, restricting the water flow. Among the worst hit areas

Thursday was the Narsinghpur-Khandsa stretch on the expressway, where water usually accumulates due to its topography. "It's a low-lying area. Due to the slope of the surface drain at the stretch, rainwater used to flow to the culverts before it got scattered, but over time due to habitation and urbanisation. the culverts were rendered useless," said an official of the Gurugram Metropolitan Development Authority (GMDA). Officials said five pumps were deployed to pump out water, but due to continuous rainfall, it had taken time

for water to recede at the stretch. At Mayfield Garden near sector 51, ongoing drain desilting work caused flooding, said officials. The traffic situation was further worsened Thursday due to a closure of a carriageway of flyover at Hero Honda chowk from Jaipur to Delhi on NH-48 till September 26 due to span load test work being undertaken by the NHAI.

On Friday morning, too, as rain continued to lash the city, commuters waded through the waterlogged underpass at Rajiv Chowk.

Officials said that though underpasses were not affected Thursday, cables of four pumps installed at the Rajiv Chowk underpass were found stolen Friday morning, due to which some water accumulated there. Officials said between 7.30 am and 5 pm Friday, Gurgaon received 29 mm of rainfall.

The contractor informed us that cables of pumps installed at Rajiv Chowk underpass were stolen last night, due to which some water had accumulated in the morning, but by noon, it was pumped with new cables. Vehicles were able to easily pass through. None of the underpasses was waterlogged during the heavy rain over the past two days," said an NHAI official.

### Is the intense spell of rain in Delhi unusual for September?

#### **ABHINAYA HARIGOVIND** NEW DELHI, SEPTEMBER 23

TWO WEATHER systems coinciding brought heavy rainfall to Delhi-NCR at the fag end of the monsoon season, after what was a mostly dry August and September.

The heavy rainfall spell that began on Thursday and extended into Friday was only the second such heavy spell at the southwest monsoon season for Safdarjung observatory so far. The first such heavy spell was recorded when the monsoon hit Delhi on June 30.

Between 8.30 am on Thursday and 8.30 am on Friday, the Safdarjung weather station, which provides a marker for the city, recorded 72 mm of rainfall. In at least the past 13 years, the highest 24-hour rainfall amount at Safdarjung in September was 117.7 mm on September 2, 2021. The 24-hour rainfall at Safdarjung in September has crossed the 70 mm mark in 2017 as well, when 77.8 mm of rainfall was recorded on September 23.

In September 2021, there were three days when heavy rainfall was recorded at Safdarjung. There was no such heavy rainfall spell in September 2020, 2019 and 2018. In September 2017, there were two days when Safdarjung recorded heavy rainfall.

The Palam weather station recorded 102 mm between 8.30 am Thursday and 8.30 am Friday, while Aya Nagar recorded 106.2 mm.

The city had recorded a large deficit in rainfall in August and in September till the current rainfall spell hit the NCR. The Safdarjung weather observatory had a rainfall deficit of around 53% as of

bourhood.

Arabian Sea," he said.

September 19. This deficit was wiped off with the rainfall recorded on Thursday and Friday. Till 8.30 am on Friday, Safdarjung had recorded 130.5 mm of rainfall in September, which is an excess of 16% for the month, when compared to a normal of 112.8 mm till September 23.

According to IMD scientists, Delhi only witnesses around one heavy rainfall spell during the monsoon season. "The normal number of heavy rainfall spells during the monsoon at the Safdarjung weather observatory is around one," said RK Jenamani, scientist, IMD. "Last year, there were more – six at Safdarjung and around eight at Palam," he added. Till 5.30 pm Friday, Safdarjung

recorded 8 mm of rainfall, while

Authority and representatives of telecom firms, sources said.

Two weeks ago, the Delhi Chief Secretary had met prominent telecom firms to discuss the rollout, it is learnt.

'The project is at an initial stage but preliminary work has begun. While telecom firms will roll out 5G, government departments will provide infrastructural support and facilitate the implementation," said a source. On the installation of the

small cells, another source said,

be provided through government departments such as the Public Works Department, which looks after major roads. The PWD has already started a survey and some data has been submitted to Geospatial Delhi

Limited (GSDL). As part of its survey, PWD will identify electric poles, hoardings, overhead sign boards, traffic signals. Metro pillars, government offices and school buildings where the project can be taken forward.

### **ESIC Dean picked** as new AIIMS chief

ANKITA UPADHYAY NEW DELHI, SEPTEMBER 23

THE APPOINTMENTS committee of the cabinet (ACC) has approved the name of Dr M Srinivas as the next Director of the All India Institute of Medical Science (AI-IMS).

He is currently the Dean of ESIC, Medical College & Hospital in Sanathnagar, Hyderabad.

Before his stint at Hyderabad, Dr Srinivas was a professor in the Department of Pediatric Surgery Palam recorded 30.3 mm. This at AIIMS Delhi.

An order in this regard was issued by Under Secretary Arvind Thakur on September 9.

night or morning, According to sources, names Jenamani said. He explained that of two doctors were recomthe rainfall is on account of the mended and sent to the ACC for remnants of a low-pressure systhe top job in the premier institem and a Western Disturbance. tute - Dr Srinivas as well as Dr Sanjay Behari, Director of Sree According to an IMD update issued Friday evening, a cyclonic Chitra Tirunal Institute for Medical Sciences & Technology, circulation lies over northwest Thiruvananthapuram.

### Maya on Bhagwat meet with Imam outfit head: 'Will it bring change in BJP's attitude?"

#### **EXPRESS NEWS SERVICE** LUCKNOW SEPTEMBER 23

A DAY after RSS chief Mohan Bhagwat visited the Delhi headquarters of the All India Imams Organisation (AIIO), Bahujan Samaj Party (BSP) president Mayawati Friday questioned if it will bring a change in the "negative attitude" of the BJP and its governments towards the Muslim community, their madrassas and mosques.

Mayawati tweeted in Hindi: "After RSS chief Mohan Bhagwat visited mosque/madrassa in Delhi vesterday and met the ulemas and then got himself addressed as the 'rashtrapita' and 'rashtra rishi', will there be a change in the negative attitude and behaviour of BJP and its governments towards the Muslim community and their masjid-madrassas?'

In another tweet, she said: "The UP government is unable to tolerate the compulsion of offering namaz for a few minutes alone in an open space... There is also a need to think about what meanings are being derived of the silence of the RSS chief on this issue.

### SANTOSH SINGH PURNIA, SEPTEMBER 23

IN THE BJP's first major event in Bihar after the fall of the NDA government in the state, Union Home Minister Amit Shah Friday said people of Seemanchal region had nothing to fear as there was leadership of Narendra Modi at the Centre.

Indirectly hinting at "infiltration" from Bangladesh and the "rise in Muslim population" — issues raised by most Bihar BJP leaders at the event – Shah said: "I have come to tell people of seemavarti (bordering) districts that now that Lalu has joined (the Bihar government) and Nitish Kumar is sitting in the lap of Lalu, there is an atmosphere of fear. I have come to tell you that seemavarti districts are part of India and nobody has any need to be afraid... There are apprehensions among people... you have no reason to fear as there is the Narendra Modi government

at the top... Nobody can dare do manmaani (excesses)." Other BJP leaders, who spoke before Shah, were more direct in

their references. Rajya Sabha MP and former deputy CM Sushil Kumar Modi said: "In 1951, 30 per

Shah brings up 'infiltration' at Bihar

rally: 'No need to fear... Modi here'

Union Home Minister Shah in Purnia on Friday. Rakhi Sharma

cent of Purnia's population was Muslim. In 2021, it is 45 per cent. The average growth in Muslim population in Purnia was 15 per cent and Katihar 10 per cent."

Calling for a "thorough investihation into matters of infiltration", Modi also brought up the radical Islamist outfit PFI, which saw raids across the country by the NIA on Thursday.

Union minister Giriraj Singh, who was in-charge of the Purnia meeting, asked people at the rally if "Bangladeshi infiltrators

should be driven out or not". Former Union minister and MLC Shahnawaz Hussain, who

was part of the NDA government in Bihar led by Nitish, attacked the JD(U) leader for his "appeasement" politics.

In his speech, Shah also said: "Some people are saying that I have come here to make people fight. Let me make it clear that it is the work of Lalu Prasad."

Pitching a development agenda for the backward Bihar region, Shah listed the projects carried out or sanctioned by the Modi government in the four Seemanchal districts of Purnia, Katihar, Araria and Kishanganj, and promised an airport at Purnia The BJP leader attacked the

D(U) leader for his frequent change of parties, having moved to BIP in 2017, and returned to the Mahagathbandhan now. He called Nitish "a habitual betrayer".

The Union Home Minister added that PM Modi had "dared remove Article 370". "Can Nitish Kumar dare praise us?" In a reference to the CBI cases against RJD leaders, Shah said: "Nitishji, would you want to ban the CBI

(from Bihar)?' Shah, who earlier held a meeting of the Bihar BJP's core committee where the party's strategy was discussed, said that the party would not align with the JD(U) leader again. "We have had enough of giving Nitish the benefit of doubt.'

Interacting with the crowd intermittently in Modi's style, Shah asked:"Do you want Rahul Baba (Rahul Gandhi) or Narendra Modi as PM again?" During his visit, the Union

Home Minister held a separate meeting with security forces in Kishanganj to assess the situation along the Bihar districts bordering Bangladesh and Nepal. In his speech, Shah said Bihar had been "freed of Left-wing extremism" under the Modi government. FULL REPORT ON

### **'RAHUL TOLD ME GANDHIS WON'T CONTEST'** Gehlot makes it official: will fight Cong chief poll

### MANOJCG NEW DELHI, SEPTEMBER 23

**RAJASTHAN CHIEF Minister** Ashok Gehlot Friday officially announced his decision to contest for the post of Congress president and left the decision on his successor in the state to the party leadership. Gehlot is set to face off against Lok Sabha MP Shashi Tharoor for the top post.

The election for the Congress president post will see a contest after a gap of 22 years. The nomination process begins Saturday. With Rahul Gandhi not contesting, the party is looking at the prospect of a non-Gandhi at the helm for the first time in twoand-a-half decades. Gehlot said he tried to convince Rahul to return as Congress president in vain during his meeting with him Thursday.

"He (Rahul) told me that 'we have decided that no member of the Gandhi family will contest this time'. He made it very clear. He said he knows that everybody wants him to take over as Congress president...he respects that...but for some reasons it was decided that a person outside the Gandhi family should become Congress president this time," Gehlot told reporters in Kochi Friday.

### ATMA ANALOGY

THE DRAFT telecom Bill has an interesting take on defining spectrum as a resource, where it goes on to compare it to the "atma". The use of this analogy has its origins in a seminar where Telecom Minister Ashwini Vaishnaw was in attendance. When one of the panelists asked the minister to define spectrum as a resource, Vaishnaw is learnt to have used this comparison to qualify the three attributes of airwaves as a resource: That, spectrum does not have any physical form, but is omnipresent; it does n teriorate upon use; and it is totally inexhaustible. The subsequent reference in the draft takes off from there. "In a way, the spectrum is similar to 'atma', which is 'ajar', 'amar' as described in Shrimad Bhagwad Gita. Like 'atma', spectrum, too, does not have any physical form, yet it is omnipresent," according to the draft.

### Cong intensifies PayCM campaign; Siddaramaiah, others detained

PRESS TRUST OF INDIA **BENGALURU, SEPTMBER 23** 

THE CONGRESS Friday intensified its campaign targeting Karnataka Chief Minister Basavaraj Bommai with the top party leaders putting up 'PayCM posters' at public places.

The Chief Minister hit back saying Congress has no moral right to speak about corruption. "Let them do anything, ultimately truth will triumph. The attitude of talking without any evidence will not last long, Bommai said.

Former chief minister Siddaramaiah. state Congress chief D K Shivakumar, All India Congress Committee general secretary and Karnataka in-

charge Randeep Singh Surjewala and several senior MLAs and others participated in the protest. Later, the leaders were de-

moved from the public place. Shivakumar said: "This campaign will go to every nook and corner of the state. We will not tained and the posters were restop it here," Shivakumar said.

**BJP** appoints

### SUNDAY MEET

BIHAR CHIEF Minister Nitish Kumar and RJD chief Lalu Prasad are expected to meet Congress president Sonia Gandhi on Sunday. Nitish was in Delhi earlier this month but he could not meet the Congress chief as she was abroad for medical treatment. Before meeting Sonia, the duo is also likely to attend a rally being organised by the INLD in Haryana's Fatehabad on the occasion of former deputy prime minister late Devi Lal's birth anniversary. Top leaders of the NCP, Shiv Sena, TMC, SAD, TRS, NC, SP and JDS have also been invited to the rally.

### CHANCING UPON LAW

ATTHE farewell event for Supreme Court judge Indira Banerjee who retired Friday, SC Bar Association president Vikas Singh said her entry into the profession of law happened by chance. Singh said Justice Banerjee wanted to try her hand in civil services and joined an MA course. A cousin then convinced her to take up law saying that it will be a better option to score more in civil services. While studying law, she became friends with former Lok Sabha speaker late Somnath Chatterjee's daughter. A high-profile kidnapping case was before the Calcutta High Court and the state had engaged Chatterjee's services. Justice Banerjee accompanied his daughter to the HC out of curiosity and those visits motivated her to become a lawyer, he said.

### Apex court stays graft probe against BSY

#### **EXPRESS NEWS SERVICE** NEW DELHI, SEPTEMBER 23

THE SUPREME Court Friday stayed the investigation initiated by the Lokayukta against former Karnataka Chief Minister B S Yediyurappa on the basis of a private complaint which raised graft charges.

A bench of Justices D Y Chandrachud and Hima Kohli also issued notice to complainant T I Abraham on Yediyurappa's appeal challenging the High Court order restoring the complaint against him.

Appearing for Yediyurappa Senior Advocates Mukul Rohatgi and Siddharth Dave contended that prior sanction from the authority was required for inquiry

with respect to acts by public servants in discharge of official functions or duties.

In this regard, the counsel referred to an October 2013 ruling of the Supreme Court.

The counsel for the respondent contended that the case fell in a different category and as such the question of sanction would only arise at a subsequent stage. Rohatgi pointed out that the

Governor had rejected the request for sanction. The court said it will exam-

ine the questions.

Sonia, Priyanka to join Karnataka leg of Bharat Jodo Yatra: Shivakumar

### **EXPRESS NEWS SERVICE BENGALURU, SEPTEMBER 23**

CONGRESS CHIEF Sonia Gandhi and Privanka Gandhi Vadra are expected to participate in the Karnataka leg of Bharat Jodo Yatra, according to Karnataka Pradesh Congress Committee president DK Shivakumar.

The yatra led by Congress leader Rahul Gandhi will enter Karnataka on September 30 at Gundlupet in Chamarajanagar district and will crisscross the state for the next 21 days. The dates when Sonia and Priyanka will participate in the yatra will be announced in the coming days, Shivakumar said Friday.

"In Karnataka, Congress pres-

ident Sonia Gandhi may attend the Bharat Jodo Yatra, and Priyanka Gandhi will also be joining separately," All India Congress Committee (AICC) general secretary KC Venugopal told reporters following a review meeting on the preparations of

the yatra in the state. During the course of the Yatra in the poll-bound state, Rahul is scheduled to participate in a programme at Badanavalu in Nanjangud taluk of Mysuru district on October 2, famous for its Khadi and Gramodyog Centre established in 1927.

Also lined up are a public rally in Ballari district, interactions with youth, women, members of civil society, tribals and farmers, among others.

### Parliamentary Party Office Secretary

New Delhi: The BJP Friday appointed Shiv Shakti Nath Bakshi as its Parliamentary Party Office Secretary.An order to this effect was issued by BJP General Secretary and Headquarters incharge Arun Singh. According to the order, Bakshi's appointment has been made as per the "direction" of BJP chief JP Nadda. "This appointment will come

into effect immediately," said the order dated September 23.

Bakshi, a former ABVP officebearer, currently holds the post of National Convenor, BJP Iournals & Publication Department. He is also Executive Editor of Kamal Sandesh, the BJP's mouthpiece. An alumnus of JNU, Bakshi has also written a book on BJP ideologue Deendayal Upadhyaya. ENS

### Missing TN AIIMS: Nadda's '95% complete' claim hits a wall

### **ARUN JANARDHANAN** CHENNAL SEPTEMBER 23

BJP NATIONAL president J P Nadda's two-day visit to Tamil Nadu has left a war of words in its wake, with a faux pas by him over an AIIMS project inviting taunts by the DMK-led ruling coalition.

The visit by Nadda, ending Friday, was touted as a prelude to the launch of the BIP's 2024 election campaign. The choice of one of his venues, Sivaganga, was also significant as this is the constituency from which Karti Chidambaram, the son of senior Congress leader PChidambaram, won last time, defeating senior BJP leader H Raja. While Raja is said to not be keen to contest from here again, BJP state president K Annamalai has been focusing on the seat, underlining its

importance for the party. However, the BJP's plans lost

some steam over Nadda's claim

 in his speech to industrials and some noted personalities - in Madurai Thursday, that a planned AIIMS project at Madurai was 95% complete.

Soon after, two MPs from the Madurai region, Su Venkatesan of the CPM and Manickam Tagore of the Congress (both are part of the government in the state), visited the site earmarked for the project at Austinpatti near Madurai, and highlighted that all that stood there was a compound wall.

In the speech, Nadda said he was proud to say that the project worth Rs 1264 crore had been implemented successfully, adding: 'Today, 95% of the work at AIIMS has been completed. Very soon it will be inaugurated by Prime Minister Narendra Modi."

Nadda also talked about Rs 550 crore being allotted for an international airport in Madurai, hinting that the delay on it was on account of the state govern-

Congress MP Manickam Tagore and CPM MP S Venkatesan visit the AIIMS Madurai construction site. PTI

CPM leader Venkatesan, who visited the AIIMS site Friday, said the project was actually waiting for the Union Cabinet's approval after its overall cost had been revised to Rs 1,900 crore from the initial estimate of Rs 1,200 crore

ment.

before the pandemic. He also questioned Nadda's claims regarding the Madurai airport, saying the Union Civil Aviation Ministry had refuted these reports earlier.

Congress MP Tagore tweeted that he had come to Madurai to "Can the DMK talk about devel-

"happily see" the 95% work, beopment? Their D stands for dying "the Loksabha member of nasty, M for money swindling, Virudhunagar in which Thoppur and K for katta panchayath (kangaroo courts)... What has been A senior BJP leader said the contribution of the DMK?"

He also claimed that many students from rural regions had been able to enrol in medical courses due to NEET. "It was Narendra Modi who made it possible to study medicine in regional languages," Nadda said.

Tamil Nadu Finance Minister and DMK leader Palanivel Thiagarajan, who is known for his repartee and his impressive educational background, was quick to retort.

"4 degrees in 4 different majors from 3 universities in two countries, after clearing multiple international standardised tests - still can't clear JPN (J P Nadda) cut-off for 'educated'," Rajan tweeted, adding: "If only I'd opted for a degree in 'Entire Political Science instead, perhaps I'd have made the cut.'

AIIMS falls". Nadda was not to blame for what happened. "Someone briefed him wrongly about the AIIMS project status, and that backfired badly," he said, adding that their main objective, of winning back Sivaganga, was on course. to were Nadda's remarks at an-

### PFI got concealed foreign funds from foreign-based members: ED

were arrested during the multi-

### PRESS TRUST OF INDIA NEW DELHI, SEPTEMBER 23

CERTAIN PFI members based abroad have been found to be sending funds to their NRI accounts in India and subsequently transferring them to the leaders of the radical Islamic organisation so as to evade the foreign funding regulation law, the ED said Friday, a day after countrywide raids against the outfit.

The federal agency on Thursday arrested four members of the Popular Front of India (PFI) during the raids, led by the National Investigation Agency (NIA). The persons nabbed have been identified as Perwez Ahmed, Mohd Ilias and Abdul Muqeet (arrested from Delhi) and Shafeeque Payeth who was taken into custody by the ED from Kerala.

More than 100 PFI members

agency operation that also involved various state police forces and their anti-terrorist units. The ED, which is probing PFI, its office-bearers and members since 2018, has also filed a fresh complaint taking cognisance of an NIA FIR filed in April against the PFI for allegedly committing terrorist acts in various parts of the country, promoting enmity among dif-

ferent groups and radicalising Muslim youths to join banned terrorist organisations like the ISIS. The ED alleged funds collected by the PFI abroad "are remitted to India through hawala/underground channels and through remittances sent to the accounts of members/activists/office bearers of PFI/CFI and other related organisations." The agency said the funds received from abroad are "concealed" from government agencies and compliance for collection of such funds and donations was not done by PFI as they are not a registered entity under the Foreign Contribution Regulation Act (FCRA).

It alleged Payeth, who was earlier based in Oatar. undertook the same modus operandi and transferred funds from abroad to his NRI account in India and later made funds transfer to PFI member Rauf Sherif (Rs 21 lakh) and Rs 16 lakh to a linked organisation called the Rehab India Foundation (RIF).

While PFI treasurer P Koya told the agency earlier that they have never received foreign funds and the organisation has no policy to get donations from abroad, the ED seized documents in 2020 that showed that the PFI has been "raising and collecting substantial funds from abroad in a well organised and structured manner.

Gangsters Act case: Allahabad HC sentences to 5-year jail

### EXPRESS NEWS SERVICE LUCKNOW, SEPTEMBER 23

THE LUCKNOW bench of the Allahabad High Court on Friday sentenced jailed gangsterturned-politician Mukhtar Ansari to five-year imprisonment in a case registered against him under the Uttar Pradesh Gangsters Act in Lucknow in 1999. Justice Dinesh Kumar Singh on

Friday passed the order reversing Ansari's acquittal in the case by a special Lucknow MP-MLA court in December 2020 on an appeal filed by the state government. The special court had acquitted Ansari, a five-time MLA from Mau Sadar constituency, stating that the "prosecution could not prove the offence against him beyond reasonable doubt"

The High Court on September 21 had also sentenced Ansari, who has been in jail since 2005, to seven-year imprisonment after finding him guilty of threatening and pointing a revolver at a jailor when he was lodged in the Lucknow district prison in 2003.

legedly committed several offences.... Therefore, he is found guilty for offence under Section 2/3 (of the) Gangsters Act.'

# **SC to hear pleas against** HC sentences Mukhtar Ansari Article 370 abrogation after Dussehra break

### **EXPRESS NEWS SERVICE** NEW DELHI, SEPTEMBER 23

THE SUPREME Court on Friday said it will take up petitions challenging the changes made to Article 370 of the Constitution that granted special status to Iammu and Kashmir as well as those on the former state's reconstitution into the Union territories of Jammu & Kashmir and Ladakh for hearing after the Dussehra break.

The matter was mentioned before a three-judge bench presided by Chief Justice of India U U Lalit. "We will certainly list it." the CII told the counsel who submitted that it is an important constitutional matter and has been pending for a long time. The bench said it will be taken up when the court reopens after the Dussehra recess. The apex court will be on Dussehra break from October 3 to October 10.

Petitions challenging the August 2019 decision of the Union government last came up in the Supreme Court on March 2,2020, when a five-judge bench presided by Justice N V Ramana rejected the prayer to refer the petitions to a larger bench. The court, however, made it clear that its order "is confined to the limited preliminary issue of whether the matter should be referred to a larger bench" and "have not considered any issue on the merits of the dispute".

The other members on the bench were Justices Sanjay Kishan Kaul, R Subhash Reddy, B R Gavai and Surya Kant. Justice Reddy retired in January this year, while Justice Ramana retired as Chief Justice of India last month.

Consequently, the bench will CM Nirmal Singh, sitting BJP MP now have to be reconstituted. ### **CHHATTISGARH** Man kills ailing 76-year-old mother in Raipur

Raipur: Aman was arrested in Chhattisgarh's capital Raipur for allegedly murdering his ailing 76-yearold mother, a police official said on Friday. The incident took place on September 20 in Mathpara locality, the Tikrapara police station official said. "Golu alias Jayesh Jadhav (35), strangled his mother Shakuntala Jadhav (76). Jadhav confessed to killing as he was fed up of taking care of his mother," the official said. PTI

lic walls painted with election symbols of lotus, hand and broom, six months after party state president CR Paatil launched a campaign to paint lotus symbol on public walls, leading to the Congress and the Aam Aadmi Party (AAP) following suit and painting almost all public walls, pillars of the metro rail and public toilets with party graffiti.

The campaign was launched by the BJP leaders on March 13 from Ahmedabad and Surat, but rapidly taken up in all cities across the state.

After a public outrage on social media over the defacement of public properties, the Gujarat Metro Rail Corporation (GMRC) was the first to paint over the symbols on metro pillars. The AMC also decided to im-

pose a penalty on those defacing walls repeatedly. AMC standing committee chairman Hitesh Barot

Party symbols of BJP and Congress painted on walls in Ahmedabad. The decision to whitewash the walls followed outrage on social media over such defacement. Nirmal Harindran

argument.

stated that "removal" of these symbols has been initiated across all 48 wards of Ahmedabad city. "After the Metro Rail

Corporation removed these political party symbols, the AMC, too, started whitewashing the walls in all wards," Barot told The Indian Express. However, this has resulted in white patches on the red brick boundary wall of Indian Institute the of Management-Ahmedabad. After the launch of the BJP's lo-

tus campaign, where every symbol was numbered, the Congress responded initially by painting LPG cylinders with its rates, alongside the lotuses in Ahmedabad Jamnagar, and Himmatnagar (in Sabarkantha district).

In Ahmedabad, the BJP launched the wall painting campaign from the Airport Circle in Shahibaug where Paatil and party vice-president Gordhan Zadaphia and general secretary Pradipsinh Vaghela, wrote, "Modi

The Congress then painted its hand symbol next to the BJP symbol on public walls near Gandhi Ashram in Sabarmati, Shahibaug, Ellis Bridge and other areas in Ahmedabad. The AAP followed suit soon and painted brooms in a yellow backdrop with the slogan "Ek Mauko Kejriwalne (One chance to Kejriwal)".

Barot told The Indian Express that the AMC did not have a record nor was it conducting a survey of how many walls were covered with such political symbols.

### approved the appointment of Dr

#### **EXPRESS NEWS SERVICE** NEW DELHI, SEPTEMBER 23

DR RAJIV Bahl, who currently is with the World Health Organization (WHO), was on Friday appointed as Director General of the Indian Council of Medical Research (ICMR) and Secretary of the Department of Health Research for a period of three years. The announcement comes on the same day as Dr M Srinivas being appointed the di-

rector of AIIMS-New Delhi. Bahl is currently the Head of Research on Maternal, Newborn Child and Adolescent Healthcum-Newborn Unit Head, Department of Maternal Newborn Child and Adolescent Health and Ageing, at the WHO in Geneva.

Diarrheal Diseases Research at Appointments the All Indian Institute of Committee of the Cabinet has Medical Sciences (AIIMS-Delhi).

#### **EXPRESS NEWS SERVICE** NEW DELHI, SEPTEMBER 23

THE SUPREME Court on Friday ordered that the FIRs registered against Times Network group editor Navika Kumar in different states in connection with a TV show where former BIP spokesperson Nupur Sharma had made certain remarks about the Prophet, be transferred to Delhi where they will be investigated by the Delhi police.

A bench of Justices MR Shah and Krishna Murari said all FIRs will be tagged with the one registered by the Intelligence Fusion and Strategic Operations (IFSO) of the Delhi police. If any FIR is registered in future, that too will be tagged with the Delhi one.

The court also granted Kumar protection from arrest for eight weeks and so as to enable her to approach the Delhi High Court to seek further remedies like quashing of FIRs. Kumar had moved the Supreme Court after FIRs were lodged against her in Maharashtra, West Bengal and Jammu and Kashmir, in connection with the

show telecast on May 26, 2022. The bench noted that it had earlier transferred the investigation in the FIR against Nupur Sharma in which Kumar is a coaccused, to IFSO Delhi and added that "there cannot be two investigating agencies with respect to the same FIRs/complaints arising out of the same incident/occurrence with respect to different co-accused".

It added that the FIR registered by Delhi police. IFSO Unit should be treated as the lead case and investigated together with the other FIRs/complaints. "IFSO unit of Delhi police shall be at liberty to collect and gather any information from the state agencies concerned, if so required, for the purpose of conducting a thorough investigation and taking it to its logical conclusion," the court added.

### **ELGAAR PARISHAD CASE** Varavara Rao's plea to stay in Hyderabad junked

#### EXPRESS NEWS SERVICE MUMBAI, SEPTEMBER 23

A SPECIAL court Friday rejected a plea filed by Telugu poet and activist Varavara Rao, booked in the Elgaar Parishad case, seeking to travel and stay in his hometown Hyderabad for medical treatment.

Rao was granted bail by the Supreme Court on August 17. It had allowed an appeal against an order of the Bombay High Court rejecting Rao's plea to make permanent his interim medical bail.

Special Public Prosecutor Prakash Shetty opposed Rao's plea stating that the best of medical treatment is available in Mumbai and considering the conditions of his bail, he should not be permitted to leave the city.

Rao's plea had said that he has been advised cataract surgery. The court was told that if he

#### undergoes surgery Hyderabad, it will be free of cost, as a pensioner of the state government of Telangana where he was a professor in a college.

in

The court was further told that Rao's daughter is an opthalmologist and granddaughter a doctor, so in Hyderabad, he will get the benefit of post-surgery medical care. A surgery in

Mumbai may cost him between Rs 60,000-Rs 2 lakh, including cost of hospitalisation and medical expenses, the court was told. Calculating the monthly cost

in Mumbai, including rent, the 82-year-old said that his expenses would come to Rs 61,000 per month. Meanwhile, Rao's coaccused Vernon Gonsalves, who was admitted earlier this month to state-run [] hospital after being infected with dengue, was discharged from the hospital and sent back to Taloja jail.

### BJP sweeps sarpanch posts, puts Uddhav Sena in shade

### SHUBHANGI KHAPRE MUMBAI. SEPTEMBER 23

IN A boost for the BJP and its ally Shinde Sena, the two parties claimed 299 of the 547 sarpanch posts in this week's panchayat elections, across 17 districts of Maharashtra. Of these, the BJP alone won 259.

The first electoral test for the coalition following the toppling of the Maha Vikas Aghadi government came as a disappointment for the Uddhav Thackerayled Sena, which is caught in a tussle with the Shinde faction over control of the party.

It got 40 posts, which was much as the fledgling Shinde faction, but put it behind both the NCP, with more than 130 sarpanch posts, and the Congress, with close to 80. The Maha Vikas Aghadi together managed to get 250 sarpanch posts, less than the BJP on its own. As the BJP and NCP

The results came as a disappointment for the Uddhav Thackeray-led Sena, which is caught in a tussle with the Shinde faction over control of the party. File

both celebrate their performance, MVA leaders admitted that the Uddhav Sena has been arguthe results indicate that "the big ing that the results should be seen battle ahead will be between the in the context of the entire MVA. BJP and NCP". "The Uddhav Sena which finished almost at par with the BJP-Shinde Sena. However, few are buying that

would likely play second fiddle to the NCP in successive elections in Maharashtra," they said. Pushed on the defensive over the pullout of the Vedanta-Foxconn project from Maharashtra, Deputy Chief Minister Devendra Fadnavis took heart from the results. "These have proved that the people's mandate is with us. The people have accepted the BJP-Shinde Sena alliance in Maharashtra."

The BJP is also underlining that as its campaign for the panchayat elections was themed around "2.5 years of the MVA government" vs "2 months of the Shinde-Fadnavis government", the results meant that the people had rejected the earlier regime led by Uddhav Thackeray.

Shinde used the results to send a message to the Sena ranks, saying: "From the beginning, we warned Uddhav Thackeray that the NCP was out to finish the Sena. But he never heeded our warning. He was smitten by the post of chief minister.'

Asking Sena workers to ponder"what the NCP has done to the

the formation of the MVA. It wants to overtake the Uddhav Sena." Dismissing "internal sabotage" as a cause for the Uddhav Sena's poor performance, Congress president Nana Patole said, "The gov-

ernment's decision to push for direct sarpanch polls helped the BJP manipulate the laws to have an upper hand." He also claimed that when it came to gram panchayat members, the Congress, NCP and Uddhav Sena were stronger compared to the BJP.

State NCP president Jayant Patil also alleged a "BJP plot" in holding direct sarpanch polls "so as to control the gram panchayats". According to him, the NCP was the largest party when it came to gram panchavat members. It is the first time direct elections were held to sarpanch posts after the Shinde-Fadnavis government passed a law last month. FULL REPORT ON www.indianexpress.com

ship attacks. This contract is going to give further boost to indigenous production of critical weapon system and ammunition with active participation of indigenous industry."

BrahMos is a two-stage missile with a solid propellant booster engine. It has a very low radar signature, making it stealthy. The 'fire and forget' type missile can achieve a cruising altitude of 15 km and a terminal altitude of 10m to hit the target. The enhanced range version of the missile has a range of 4,000km, as compared to the original range of 290km.

### SGPC rejects SC order on Haryana law for gurdwaras

### **EXPRESS NEWS SERVICE** CHANDIGARH, SEPTEMBER 23

TERMING IT as "an attack on the soul of Khalsa Panth" of "even higher magnitude than the Operation Bluestar", the Shiromani Gurdwara Parbandhak Committee (SGPC) Friday rejected the Supreme Court judgment upholding the constitutional validity of a 2014 law enacted by the Haryana government to manage the affairs of the Sikh shrines in the state. It also decided to file a review petition against the apex court order

The SGPC executive committee, in an urgent meeting in Chandigarh, passed a resolution rejecting the apex court order upholding the validity of the Haryana Sikh Gurdwara Management) Act, 2014. The resolution states that the law enacted by the Haryana government "cannot affect the jurisdiction of the SGPC while the Sikh Gurdwaras Act, 1925 is in force". Dhami said, "The SGPC executive committee has decided to file a review petition against the Supreme Court order and a special meeting of

all the members has been called in Amritsar on September 30 to discuss future course of action".

He said only the Centre has the right to amend the Sikh Gurdwaras Act and that too is possible only with the approval of the SGPC's General House. "State governments cannot reduce the jurisdiction of the 1925 Act," he added. "From time to time, governments have adopted tactics to weaken the Sikh power and interfere in the SGPC's affairs, but they never succeeded before the Panth's unity," Dhami said.

There are 52 gurdwaras in Haryana. Five of those are managed by the HSGMC while the rest are under the SGPC. Besides the shrines in Punjab and Haryana, the SGPC also manages the affairs of a gurdwara each in Himachal Pradesh and the Union Territory of Chandigarh.

The Haryana Sikh Gurdwara (Management) Act was enacted when Bhupinder Hooda was CM.

### Uttarakhand Speaker revokes 228 ad hoc appointments in Assembly

### EXPRESS NEWS SERVICE DEHRADUN, SEPTEMBER 23

FOLLOWING THE recommendations of a high-level committee, Uttarakhand Assembly Speaker Ritu Khanduri on Friday revoked 228 ad-hoc appointments made in the Vidhan Sabha secretariat in violation of the set norms. According to a statement is-

sued by the state government, the revoked ad-hoc appointments include 150 made in 2016, six in 2020, and 72 appointments made last year. She also placed Vidhan Sabha Secretary Mukesh Singhal under immediate suspension. The high-level committee submitted its report to the Speaker late on Thursday night.

"I want to inform that last night I received the high-level committee report. After assessing the records of the Vidhan Sabha Secretariat, the committee found that in appointments till 2016, in 2020, and 2021 there were irregularities, and these rules for respective posts were not followed in these appointments. Mentioning the orders given by courts in connection with illegal appointments, the committee recommended that the said appointments be canceled," she said.

Khanduri said because the said appointments were done through the government, its approval is mandatory to cancel these appointments, and thus she is sending her decision to the state government for its approval.

In its report, the committee mentioned that the decided selection committee was not established for direct appointments, no advertisements or public information was issued regarding the vacancies, interested candidates were not asked to submit applications and jobs were given only on personal job applications, no competitive exams or tests were conducted, and the candidates were not given equal op-

portunities. Chief Minister Pushkar Singh Dhami welcomed the Speaker's

decision Earlier, the CM had cleared the government's stand on the issue and had requested the Speaker to investigate the matter. Following that, the Speaker had formed a high-level committee to look into the matter.

### K Raja Prasad Reddy is elected

### PRESS TRUST OF INDIA NEW YORK, SEPTEMBER 23

THE BRICS nations of Brazil Russia. India, China and South Africa supported all efforts conducive to the "peaceful settlement" of the situation in Ukraine as they expressed concerns regarding increased and ongoing conflicts in the world and stressed their commitment to the peaceful resolution of disputes

through dialogue. Foreign ministers Carlos Alberto Franco Franca (Brazil), Sergey Lavrov (Russia), S Jaishankar (India), Wang Yi (China) and Minister of International Relations and Cooperation of the Republic of South Africa Naledi Pandor met Thursday for the annual BRICS Ministers of Foreign Affairs and International Relations meeting on the margins of the high-level UN General Assembly session.

A press release issued by the Ministry of External Affairs said that the ministers "committed to respecting the sovereignty and territorial integrity of all States,

Support all efforts for peace in

External Affairs Minister S Jaishankar at a BRICS gathering on the sidelines of UNGA summit in New York on Friday. PTI

stressed their commitment to the peaceful resolution of differences and disputes between countries through dialogue and consultation, and supported all efforts conducive to the peaceful settlement of the situation in Ukraine." A press statement issued after

the meeting, chaired by South Africa in its capacity as the incoming BRICS Chair for 2023, said that the ministers "expressed concerns regarding the increased and ongoing conflicts in many parts of the world". They reiterated the need for full respect of international humanitarian law and the provision of humanitarian aid in accordance with the basic principles of humanity, neutrality, impartiality and independence established.

They "recalled their national positions concerning the situation in Ukraine as expressed at the appropriate fora, namely the UNSC and UNGA," the statement said.

**Ukraine: BRICS foreign ministers** Earlier in the day, Jaishankar told a UN Security Council meeting on Ukraine that the trajectory of the Ukraine conflict is a matter of profound concern for the enti international community. "The f ture outlook appears even mo disturbing. The nuclear issue particular anxiety." Underlinii Prime Minister Narendra Mod assertion to Russian Preside Vladimir Putin that this cannot an era of war, Jaishankar told tl UN Security Council that the nee of the hour is to end the conflict Ukraine and return to dialog and diplomacy.

The ministers also called for the expeditious finalisation ar adoption of the Comprehensi Convention on Internation Terrorism within the UN fram work. They expressed strop condemnation of terrorism in its forms and manifestatio whenever, wherever and whomsoever committed, a pre statement said. They "reject double standards in counteri terrorism and extremism co ducive to terrorism Conference of Disarmament.

### Caught 'cheating', 12-yr-old dies by suicide

### EXPRESS NEWS SERVICE LUCKNOW, SEPTEMBER 23

HOURS AFTER a 12-year-old boy – a student of class VII – was allegedly caught cheating in an exam, the Rae Bareli police found his body hanging from a fan at his residence on Thursday. A suicide note was recovered, police said.

school authorities "forced him to take the extreme step."An FIR was registered against the school principal and an assistant teacher on charges of abetment to suicide. No arrests have been made yet. The case was filed by the boy's father, a businessman. The authorities, however, denied the allegations. For the past few years, the boy

and his elder brother were stav-

and my daughter, who is also a student of the same school, were sitting in the same classroom. My daughter told me that a teacher caught him cheating during biology exam. The teacher thrashed him in front of all students. Then he was taken to the principal's office, where he was again scolded and beaten," said the uncle.

He said the boy was de-

Candidates working in Government/Public sector undertaking/ autonomous bodies should apply through proper channel Upper Age Limit: 28 years as on the closing date of receipt of applications. The upper age limit shall be relaxable to th candidates belonging to Scheduled Castes, Scheduled Tribes and OBC as per Government of India norms.

The closing date of receipt of applications shall be 21 days after publication of Advertisement in Employment News How to apply : Candidates should download and fill the Application Form in the prescribed format (available on the websit

www.drdo.gov.in). The duly filled-in application alongwith enclosures should be forward to Director, IRDE, Dehradun Candidates should write in bold letter **'APPLICATION FOR JRF ENGAGEMENT'** on TOP of the cover of envelop. Candidates are required to submit crossed Indian Postal Order of Rs. 10/- drawn in favour of "The Director, IRDE, Dehradun

Candidates belonging to SC/ST/OBC are exempted.

### Burning fuel to carry fuel: Govt's ethano programme to face transport challenges

### HARISH DAMODARAN NEW DELHI, SEPTEMBER 23

INDIA'S ETHANOL production for blending with petrol has soared from 38 crore litres in 2013-14 to an estimated 450 crore litres in the current 2021-22 supply year (December-November). And with supplies for achieving 20 per cent blending by 2025-26 projected at 1,016 crore litres by NITI Aayog, a new logistics challenge is emerging - moving this alternative fuel from distilleries to blending depots and retail points.

"Currently, the entire quantity of ethanol is being transported by road on truck-tankers. Carrying 1.016 crore litres would require about 3.5 lakh tankers at an average 29 kilolitres capacity. Not only is this costly, but will amount to burning fuel to move fuel and re-

sult in greenhouse gas emissions of around 76 million tonnes," said Akhilesh Goyal, managing director of the Madhya Pradesh-based Maarewa Sugars Pvt. Ltd. According to Goyal, the gov-

Production in the current supply year is around 450 crore litres. File

ernment should consider alternative options for ethanol movement, including through dedicated pipelines, rail tank wagons and ferries/steamers in coastal areas. "They can also look at the RORO (roll-on/roll-off) model of moving ethanol truck-tankers themselves by rail." he said at a recent conference on sugar and ethanol organised by the Indian

Ethanol production has received a boost thanks to the government's attractive pricing policy. But logistics of movement and distribution of large quantities presents a challenge not only in terms of cost, but also emissions. It could result. essentially, in burning fuel to carry fuel.

Sugar Mills Association and the Brazilian agri-consultancy firm DATAGRO.

Plinio Nastari, president of DATAGRO, said that Brazil (which produces 3,500 crore litres of ethanol annually) has 14 oil refineries and 354 ethanol distilleries that supply to 170 fuel depots all over the country. The movement of fuel and ethanol to

of Bihar

Govt. 渊

pipelines, rail or coastal ship Transport by truck-tankers ha pens only in the last leg, from the depots to 41,700 retail outlets Nastari felt that there was

transport ethanol. "In the last years, we have been using mul product pipelines for moveme of diesel, gasoline (petrol) a ethanol," he said. Nastari, ho ever, advocated some preca tions on account of ethanol h ing a solvent that dissolves t gums formed in gasoline and a cumulated in tanks. "Having ters in the fuel hose pipes can e sure that this gum (which com from gasoline and not ethan will not cause problems to t

India's ethanol output of crore litres could enable only 1. per cent blending with petrol 2013-14. The current supply yea production of 450 crore litres 370 crore from sugarcane-based distilleries and 80 crore litres from those using grain feedstock - will help achieve 10 per cent blending.

### the depots is entirely through need for dedicated pipelines

vehicles," he added.

# THE PFI CHALLENGE

The Islamist outfit is a security threat and a political problem any strategy to check its influence needs to factor in both

HE NATIONWIDE SEARCHES and raids at various offices of the Popular Front of India (PFI) and arrests of its leaders have turned the spotlight on the activities of the organisation. The National Investigation Agency (NIA), which led the searches, has stated that it has "evidence that the PFI leaders and cadres were involved in funding of terrorism and terrorist activities, organising training camps for providing armed training and radicalising people to join banned organisations". PFI workers have been arrested in the past for carrying out political murders as well as attacking people perceived to have insulted Islam - the sensational attack on TJ Joseph, a college teacher in Kerala, for allegedly defaming the Prophet, had highlighted the violent nature of PFI politics. This has reinforced the perception about the PFI as a group that sees violence as a tool to push its polarising political agenda. However, it would be myopic to view the PFI challenge purely in terms of national security; it also poses a political challenge that needs to be framed in terms beyond arrests and FIRs.

The PFI emerged from a radical strand in Muslim politics that found acceptance within a section of the community after the demolition of Babri Masjid in 1992 and the rise of Hindutva agendas. It was also influenced by ideas of political Islam that gained ground after the Iranian revolution in the late 1970s. When SIMI, the most prominent exponent of this politics was banned, new groups emerged. These outfits ostensibly articulated their politics through the prism of rights guaranteed by the Constitution but their work often violated the norms of legitimate political action. The PFI was formed in 2007 through the merger of National Democratic Front in Kerala, Karnataka Forum for Dignity, and Manitha Neethi Pasarai in Tamil Nadu, after the Centre banned SIMI. The PFI is not a marginal or secretive political group. It works overground and its political wing, the Social Democratic Party of India (SDPI), is active in electoral politics. The PFI has been working to expand its footprint by claiming to represent the disenchanted and marginalised Muslims. It taps into wells of resentment to earn political legitimacy even if that means using violence and defying the rule of law. This is the political context of the appeal for the PFI.

It is for NIA and other state agencies to address the security threat that the PFI poses. States and the Centre need to work together on this. However, unlike insurgent groups that are delinked from the political process, the PFI and SDPI are woven into the social and political fabric of Kerala and parts of Karnataka and Tamil Nadu. At a time of majoritarian politics and steady shrinking of Muslim representation in political institutions, the PFI will always be on the lookout for fresh fodder. That is as serious a challenge as the one it poses on security.

### MELTDOWN IN NEPAL

Standoff involving President's office, executive and judiciary triggers a constitutional crisis in Kathmandu

T IS UNFORTUNATE that the seventh anniversary of the promulgation of Nepal's Constitution has been marred by an unforeseen, though not an entirely surprising standoff between the constitutional head, the executive and the judiciary. Chief Justice Cholendra Shumsher Rana is under undeclared house arrest after an impeachment motion against him moved by the outgoing Parliament. President Bidhya Devi Bhandari and Prime Minister Sher Bahadur Deuba's government are at war with each other over her refusal to grant assent to a new citizenship bill that seeks to give citizenship by birth and descent to an estimated 500,000 people. The President had sent it back with questions, some of which are seen as valid, including its gender regressive portions. The Opposition sees the Bill as a government sop to the Terai region ahead of the elections. The elections are sched-

From mines to ports and logistics, the conglomerate has been expanding across sectors, regions

### NIRUPAMA SUBRAMANIAN

"SEVERAL FOREIGN GOVERNMENTS are now approaching us to work in their geographies and help build their infrastructure. Therefore, in 2022, we also laid the foundation to seek a broader expansion beyond India's boundaries," chairman and founder of the Adani group Gautam Adani, now the world's third-richest person, said in a virtual address to shareholders at the annual general meeting of Adani Enterprises Ltd in July this year.

In fact, the Adani group had been scouting abroad much earlier. Since 2010, the Adani group has been in Australia, developing the Carmichael coal mine in Queensland despite massive country-wide protests over environmental and other concerns. The mine is now operational, albeit not as big as planned and, it has begun exporting.

In 2017, Adani Ports and Special Economic Zones (Ltd) signed an MoU for a greenfield multi-purpose port for handling containers at Carey Island in Selangor state, about 50 km southwest of Kuala Lumpur. With Malaysia a crucial link in the Chinese Belt and Road Initiative, the Adani interest was contrary to the expectation that a Chinese investor would be roped in for a mega port-cum-maritime city project on Carey Island. Like Carmichael, however, the port project ran into local opposition. A feasibility study is still ongoing.

The last two years, however, have seen the company pursue international infrastructure projects aggressively. In May 2022, APSEZ made a winning bid of \$1.18 billion for Israeli state-owned Haifa Port, jointly with Israeli chemicals and logistics firm Gadot. The Adani company will own 70 per cent of the stake in the port. Down the road from Haifa is another port operated by the Chinese state-owned Shanghai International Port Group, and the two are expected to compete for business.

In August this year, APSEZ and Abu Dhabi's AD Ports Group signed an MoU for "strategic joint investments" in Tanzania. In their sights is Bagamoyo Port, earlier being jointly developed by China Merchants Holdings International and Oman's State Government Reserve Fund (SGRF) under a 2013 agreement with the Tanzanian government. The port was supposed to be a premium BRI project. But it struggled to get off the ground. Two years ago, the contract was cancelled after then President John Magufuli called the terms "exploitative and awkward". The new ASEZ-AD MoU will

The link between diplomacy and commercial interests has generated its share of debate, especially in the US, where its diplomats, intelligence agencies and military interventions abroad have actively pushed the interests of big business - first the hunt for cheaper raw materials, then for markets abroad, then to shift industry where manpower was cheaper. As seen in the new age trading blocs - the US-led IPEF, and the Chinese dominated RCEP — economic interests lie at the heart of geopolitics.

look at a bouquet of infrastructure projects besides Bagamoyo in the East African Indian Ocean nation - rail, maritime services, digital services and industrial zones.

Is it just coincidence that Adani's global expansion closely shadows the Chinese footprint along its Belt and Road Initiative? Or is it that as Delhi competes with China for influence in the neighbourhood and beyond, the Adani group's size, resources and capacity are seen as a key element in achieving India's strategic objectives than has been possible so far. Irrespective, India's infrastructure diplomacy is now becoming identified the world over with one company.

For the Adani group, described as India's biggest ports and logistics company, there couldn't be a better time. As the Quad grouping of Australia, India, Japan, and the US, competes with China in the Indo-Pacific, it has committed "to catalyse infrastructure delivery" by putting more than \$50 billion on the table for 'assistance and investment" in the Indo-Pacific over the next five years and "drive public and private investment to bridge gaps". The Australia-India free trade agreement signed earlier this year, which gives coal imported from Australia zero duty access to India, is no small detail for Adani

The joint Adani-AD Ports interest in Tanzania has come at a time when India-Israel-UAE-US have come together as the "Quad of the middle east" to address the China challenge outside the Indo-Pacific.

In Sri Lanka, a controversy erupted over last year's award of two wind energy projects to Adani Green Energy Ltd, after an official de-clared he had been asked to greenlight the project by President Gotabaya Rajapaksa under pressure from the Indian Prime Minister.

It was not the first time though that Adani appeared as the go-to company for Indian projects in Sri Lanka.

Under a Sri Lanka-Japan-India agreement, APSEZ was to develop and operate the East Container Terminal at Colombo Port. The Rajapaksa government abruptly cancelled this agreement in January 2021, and later offered the West Container Terminal as consolation. Adani is developing it jointly with a Sri Lankan partner. In both cases, it is not known why or through what process Adani was the chosen Indian developer.

Even as many in Sri Lanka fret about these

"secret agreements", Sri Lankan officials seem to have made pragmatic peace with the choice. '80 per cent of the business at Colombo Port is transhipment. Of this, 70 per cent is to India. And of that 70 per cent, 35 per cent goes to Adani held ports. With Adani coming in with 3 million TEUs (20-foot equivalent unit) in the West Container Terminal -- our capacity of 7.5 million TEUs increases significantly," Sri Lanka's High Commissioner to India Milinda Moragoda said in an interview to The Indian Express in January.

Adani's new "no-hands" model of doing business with neighbours - a power plant in harkhand, exporting all its output to Bangladesh – has been seen as a "win-win" deal. An official compared the "success" of this model with Nepal, where Indian projects have been held up for decades due to local politics and other hurdles. Jharkhand was not problem free, but as Adani tweeted after his meeting with Prime Minister Sheikh Hasina in Delhi earlier this month, the project is all set to send 1500 MW to Bangladesh by Bijoy Dibosh in December 2022, six years after an MoU for this was signed.

The link between diplomacy and commercial interests has generated its share of debate, especially in the US, where its diplomats, intelligence agencies and military interventions abroad have actively pushed the interests of big business - first the hunt for cheaper raw materials, then for markets abroad, then to shift industry where manpower was cheaper. As seen in the new age trading blocs — the US-led IPEF, and the Chinese dominated RCEP - economic interests lie at the heart of geopolitics.

At a time when global rivalries are growing sharper in the shadow of the war in Europe, and as India looks out for its own interests, pushing powerful corporates to the centrestage of its diplomacy, whether it is to build ports, buy or sell weapons or make chips, is inevitable. Which companies are deployed, how and why will be watched and discussed. Just as Delhi has fashioned non-alignment 2.0 in its global relations, its diplomacy has to avoid tying itself, and by extension the national interest, in less than opaque ways to the fortunes of a single private entity. Given the concentration of capital in India Inc and the economic headwinds ahead, that will be a challenge

A SCHEME FOR TEACHERS

uled on November 20, but only if Bhandari, who belongs to the Opposition United Marxist Leninist Party, does not take any action by which the polls could get postponed, such as usurping the powers of the executive.

The President heightened such concerns when earlier this week she attended virtually a meeting of the Chinese Global Security Initiative despite some reservations in sections of the government. The theme of the conference was "Acting on the Global Security Initiative to Maintain Global Peace and Stability". The Chinese invitation to Nepal to attend the conference came on the heels of a mid-September visit by Li Zhanshu, head of the Standing Committee of the Chinese National People's Congress, the third by a Chinese dignitary since March, when foreign minister Wang Yi visited. The head of the international liaison department of the Chinese Communist Party Liu Jinchao visited in July.

The constitutional crisis underlines the failure of Nepal's political class to manage the sweeping changes that came about after the 2008 abolition of the monarchy. The instability meant that the making of the Constitution would take another nine years. It was promulgated amid protests by the Madhesis whose demands for equal treatment of the Terai region with the hill provinces were not met. The protest led to a blockade of Nepal from the Indian side. If elections are held as scheduled, all indications are that the campaign will be polarised over the Citizenship Bill, and by extension along pro and anti-India lines. In the five years since the last election, Kathmandu was a revolving door of governments formed by different political combines with hardly the time or the inclination to address governance issues. It is hardly a propitious beginning to the next five years.

### NO LAW FOR THE POMPOUS

New Zealand is debating a law to make public communication less complicated. But jargon is too widespread

ANGUAGE, MOST DICTIONARIES will tell you, is the "principal method of human communication" - in essence, it is a way to understand and be understood. Clearly, lexicographers don't have much truck with officialdom. As the recent debate over a proposed law in New Zealand has shown, the purpose of bureaucratese is not to explain, but to obfuscate. The Plain Language Bill, if passed into law, will require government communications to the public to be "clear, concise, well-organised, and audience-appropriate".

On the face of it, no one who has had to decipher an official document will disagree with the noble intent behind the law. In India, across languages, government communication is but a distant cousin of the spoken language. But, and here's the nub of it, is legislation a cure to pomposity? And are sarkari babus the only ones guilty of using excessive jargon? Management speak ("ideate", "stop thinking in silos", "circling back"); the almost magical terminology of economists ("animal spirits" boost an economy guided by the "invisible hand", as long as the "macroeconomic fundamentals are strong") and of course, the obsequious writings of policy wonks hoping for government favour all fall into this category. The latter, in particular, find "paradigm shifts" in every "game-changing" act that they are involved with. Then there is the legalese in court judgments, and from eminent lawyers, which might as well be in hieroglyphs.

The ultimate problem, in New Zealand and beyond, is that it is difficult to legislate against pomposity. The "thought leaders" today are a bit like the castes of the past that wanted to ensure that knowledge remains solely their preserve - jargon, in essence, is the court language of the modern era. The babu - within government and without doesn't want to be understood. She wants to be respected, and in the absence of substance, multi-syllabic gibberish is the best so many people have to offer.

### Ameeta Mulla Wattal

THE UNION Cabinet's approval of the PM SHRI schools scheme comes at a time when the schooling system is in disarray. Teachers seem to be caught in a time warp after the pandemic and the anxieties of children are increasing because of the switch to online classes during the public health emergency and then the pivot back to regular schooling. Confused school managements and parents are finding it difficult to address learning gaps. Where do we go from here? Perhaps towards a pedagogy based on activities, toys, art and projects and inclusive learning methods that incorporate sports and give vocational learning its due.

Four national curriculum frameworks have emphasised inquiry, creativity, discovery, problem-solving, decision making and joyful learning. How do the NEP 2020 and the new NCF that is likely to come into play soon differ from the earlier initiatives? Essentially in the weightage they accord to the above elements of classroom learning. The 14,500 PM SHRI schools could become the agencies for the change envisaged by the new policies. But that will require commitment, hard work and progressive thinking. These schools will need to find ways to reverse learning losses and ensure life outcomes that have a positive bearing on the nation's economy - especially in the ways the country uses its demographic dividend. We need to find new ways to understand not just what the children learn but also how they learn. In India, 250 million children are out of classrooms and several million are in

Currently, poor status, low salaries and inadequate working conditions deter talented people from entering the profession. However good these 'rising schools' may be, they will not become meaningful centres of learning, if the teachers are not trained in the novel methodologies underlined in the NEP. schools of the future.

school, but unable to learn.

Hopefully, the PM SHRI schools will attract large investments from the Centre as well as state governments, apart from the separate budget allocated to them to upgrade their facilities. These schools promise to encompass all aspects of the NEP. Every region will have PM SHRI schools that will handhold and mentor other schools in their vicinity. A wide range of learning experiences, good physical infrastructure and appropriate resources will be available to students. A variety of pedagogies and assessment systems will be used along with the introduction of vocational education. Linkages with skill counsellors and local industry will be established to provide employment opportunities to students graduating from these institutions. The schools will be energyefficient with natural farming patches, they will be equipped with rainwater harvesting systems and will enable the study of traditional environment-friendly practices. The community and alumni will be involved in activities such as career guidance and mentoring. Parents too will be trained to become home mentors. The school will become community centres after the regular hours and converge with existing schemes including PM Poshan, Samagrah Shiksha and Ayushman Bharat. If these "ideal" schools accomplish even a

quarter of their goals, they will make a significant difference to the educational landscape of the country. However, improving the quality of education is not just extremely challeng-

ing but also an expensive proposition, especially in countries that have large socio-economic gaps. Years of investment deficits in high-quality teachers, training and resource materials have led to cycles of poor learning. Breaking them will not be easy.

As a document, NEP 2020 is inspirational. However, it will remain on paper if teachers are not motivated to work hard. Currently, poor status, low salaries and inadequate working conditions deter talented people from entering the profession. However good these "rising schools" may be, they will not become meaningful centres of learning, if the teachers are not trained in the novel methodologies underlined in the NEP. We still do not have enough institutes with a curriculum that trains teachers for the schools of the future.

Poor teaching is a product of systemic deficits that makes the teaching profession unattractive to a large number of talented people. For the PM SHRI schools to succeed, a teacher training programme must be in place to train the educators in the pedagogical practices proposed by the NEP. As far as principals are concerned, there is a great crisis of leadership

Perhaps, the government's next initiative should be a "PM TRI" scheme - Teachers for Rising India.

### SEPTEMBER 24, 1982, FORTY YEARS AGO

### INDIRA'S LAWYER IN RS

MARAGATHAM CHANDRASHEKHAR, A Congress-I leader and Madan Bhatia, Indira Gandhi and Sanjay Gandhi's lawyer during the Janata regime, are among the four who have been nominated members of the Rajya Sabha to represent special interests. The other two are Hayatullah Ansari, former editor of Quami Awaz, a publication of Mrs Gandhi's National Herald Group and V N Tiwari, an educationist from Chandigarh.

### J&K BILL

THE GOVERNOR, B K Nehru, has suggested

that the J&K Legislative Assembly make changes in the controversial resettlement bill to make it consistent with the correct constitutional position. The Governor has, while returning the bill under Section 78 of the J&K Constitution to the assembly, said that granting admission to and conferring citizenship rights to an outsider under the Seventh Schedule of the Constitution of India, lies in the exclusive domain of the Parliament.

### NEW LEADER IN BEIRUT

A HUGE EXPLOSION at an arms dump rocked Christian east Beirut as Amin Gemayel was sworn in as the new President of Lebanon. He

replaces Elias Sarkis. Gemayel said he would work to re-establish Lebanon's sovereignty by ensuring the immediate withdrawal of all foreign forces.

### BABBAR KHALSA DAL

TALWINDER SINGH, SUSPECTED to be a leader of the killer squad responsible for a number of shooting incidents in Punjab, is reported to have formed a new party known as Babbar Khalsa Dal, of which he is the jathedar, at Montreal in Canada. Talwinder, wanted by the Punjab police in a number of criminal cases, had slipped out of India and gone to Canada last year.

### THE INDIAN EXPRESS, SATURDAY, SEPTEMBER 24, 2022

# **13** THE IDEAS PAGE Renewing our cities

Indian urban centres need to plan for migration, climate change. Healthcare, affordable housing, sustainability and inclusion hold the key reimagining them

IT TOOK JUST one day of heavy rainfall in Delhi-NCR to bring back the familiar sights of water-logged streets, crawling traffic, brokendown vehicles and citizens wading in kneedeep water with their two-wheelers in tow. Power outages, crumbling walls and deaths due to electrocution compound citizens' woes. A fortnight ago, 126 of Bengaluru's lakes had overflown, with water logging reported in Mahadevpura, Bellandur, Bommanahalli, Munnekolalu and other parts of the city. Over 2,000 houses were flooded and 10,000 homes isolated from the rest of the city - in many places, including posh localities, there were instances of lack of drinking water and electricity. It is a recurring phenomenon each year, across all major Indian cities. Our cities are being laid low, by small encroachments, made over the past few decades.

This harrowing situation is an indication of the lack of urban planning - while every major city in India has sanitised enclaves (civil lines, cantonments), areas with economic vitality have sprung up with limited civic infrastructure. Our cities routinely neglect key elements of urban planning - stormwater drains are ignored and lakes and rivers are neglected while concretising urban spaces. Indian cities, by and large, are very poor in executing urban projects. Bengaluru scored 55.67 out of 100 in the Quality-of-Life metric in the Centre for Science and Environment's Ease of Living Index 2020. Delhi – with the added benefit of being the nation's capital scored 57.56, while Bhubaneswar could tally 11.57 on the Economic Ability parameter of the index. Master plans, where they have been developed, are detailed documents, with limited urban planning flexibility. Little thought is given to how market forces and migration will impact the plans.

In the West, the Garden City movement (initiated by Ebenezer Howard in 1898) sought to decentralise the working environment in the city centre with a push for providing healthier living spaces for factory workers. The ideal garden city was planned on a concentric pattern with open spaces, public parks and boulevards, housing 32,000 people on 6,000 acres, linked to a central city with over 50,000 people. Once a garden city reached maximum capacity, another city would be developed nearby. In the US, the garden city movement evolved into the neighbourhood concept, where residential houses and streets were organised around a local school or community centre, with a push for lowering traffic and providing safe roads. London has a metropolitan green belt around the city, covering 5,13,860 hectares of land, to offset pollution and congestion and maintain biodiversity. Why can't Indian cities have something similar, instead of ring roads and urban sprawls? Paris has taken this forward with the "15minute city" ('la ville du guart d'heure'). The idea is rather simple, every Parisian should be able to do their shopping, work, and recreational activities and fulfil their cultural needs within a 15-minute walk or bike ride – this means that the number of vehicular trips gets reduced significantly. A city would then be planned for pedestrians, instead of cars and motors. This requires an extensive usage of

mixed-use developments, along with investment in pedestrian infrastructure and nonmotorised transport zones. Instead of widening highways, this approach would push for widening pedestrian walkways. Why can't Bengaluru be redesigned as a city where traffic is unheard of, with every resident being able to access jobs, public services and groceries close by? Instead of the 10-minute delivery for food, wouldn't a 10-minute walk to work be better?

Every Indian city should ideally have a Master Plan, a strategic urban planning document which would be updated every decade or two. The document would entail how a city is supposed to grow, vertically and horizontally, across zones, while offering a high quality of life in a sustainable manner. Such plans would also consider poverty mitigation, affordable housing and livability for urban migrants.

Urban land use needs to be better. One look at satellite map imagery will show that India's urban growth is increasingly haphazard, with informal, unplanned and sprawling neighbourhoods developing in paddy fields and along linear infrastructure (arterial roads, open spaces). India's hidden urbanisation, driven partly by our stringent definition of the word, along with weak enforcement of building codes, has meant that the local government is often playing catch-up, unable to provide urban services and infrastructure to keep up with growth.

Meanwhile, in places where there are formally recognised towns and urban neighbourhoods, outdated planning practices have meant that land utilisation is poor. Consider India would ideally require 3,00,000 town and country planners by 2031 (there are just 5,000 town planners currently. Much of this problem is fundamentally due to a lack of town

### WHAT THE OTHERS SAY

"Since the regime portrays opposition as the work of outsiders or their stooges, grand statements from western leaders – especially those immiserating Iran – are not always helpful: principled, multilateral pressure is a better course." – THE GUARDIAN

# Undoing colonial legacy

Renaming Rajpath as Kartavya Path, installing Netaji's statue does justice to the many strands of the national movement, not just its dominant one

### by Ram Madhav

RAJPATH, THE 1911-vintage Kingsway built to welcome King George V, became Kartavya Path. A tall black-stone statue of Netaji Subhas Chandra Bose, described by Prime Minister Narendra Modi as the "first Pradhan of united India", was installed under the canopy where King George V's statue stood. This is New India's final push for dismantling colonial-era remnants. At the unveiling function, Modi described Rajpath as a symbol of slavery and hoped that Kartavya Path would motivate people's representatives toward India's "democratic past and universal ideals".

India's Independence movement was inspired not just by the desire to replace the British with Indian rulers but by the passion to return to its civilisational glory. Lala Lajpat Rai, Madan Mohan Malviya, Bal Gangadhar Tilak, V D Savarkar, Sri Aurobindo and M K Gandhi - many leaders were committed to that ideal. Even Jawaharlal Nehru, the Cambridge-educated young man whom Gandhi affectionately described once as "our Englishman", was so determinedly anti-British that he threatened to resign from Congress in 1928 when the Nehru Committee, headed by his father Motilal Nehru, recommended that India may accept the British offer of dominion status. Nothing short of "Poorna Swaraj" - total independence - junior Nehru insisted.

Sadly though, those motivations waned when independence dawned. In 1948, India decided to join the so-called Commonwealth. Most of these Commonwealth countries have nothing in common except their colonial past — nor any wealth — yet India continues to be a member. The silver lining is that unlike countries like Canada, Australia and New Zealand, India didn't remain under British dominion after independence.

Some half-hearted efforts were made after Independence to remove the symbols of colonialism. Names of some roads and buildings were changed. But the statue of King George V remained on Rajpath for a full two decades until a public agitation forced the government in 1968 to shift it to another venue. The canopy remained empty because the leadership was undecided over who should occupy it. Gandhi's name was proposed several times but turned down during the regimes of Indira Gandhi and Rajiv Gandhi. In the 75th year of independence, Modi is giving a new thrust to that effort. The new parliament building, Kartavya Path, National War Memorial and the statue of Netaji are all the new symbols of a decolonising India. Some found the installation of Netaji's statue on Kartavya Path less convincing. India's identity from its Independence was that of non-violence, they argue. It is precisely that narrative which needs to change. India's independence movement had many strands, the non-violent one led by Gandhi being the most prominent. But Netaji's contribution was no less significant.

National Army (INA) had hit the last nail in the British coffin in the penultimate years of the Independence struggle. Netaji's scintillating address at a rally in Burma, in which he gave the thunderous appeal, "Give me blood and I promise you freedom", led to a tectonic shift in that struggle.

INA's adventurous battles and the capture of Moirang in Manipur under the leadership of Lt Col Shaukat Ali on April 14, 1944, had triggered a wave of enthusiasm among the masses of India, who were disappointed by the failure of the Quit India Movement. This enthusiasm turned into anger when the British brought 11 INA soldiers to Red Fort for a trial in 1945. The fire lit by the INA was so fierce that rebellions broke out in the Royal Indian Navy with Indian soldiers, who constituted the majority in the force, refusing to obey the orders of their British officers.

The rebels, who started calling themselves the Indian National Navy on the lines of Netaji's INA, mutinied initially at Bombay in 1946, but the unrest soon spread from Karachi to Calcutta. It involved over 20,000 sailors and 78 ships. At the peak of the revolt, sections of the Royal Indian Air Force and Royal Indian Army too joined the revolt. There were incidents of unrest in the army cantonments of Madras and Poona. The Indian soldiers started defying their British superiors and saluting with their left hand as a mark of revolt.

Although ideologically opposed to violent struggles, the Indian National Congress leadership too saw in the INA trials an opportunity to re-ignite the spirit of freedom among the masses and came forward to defend the INA soldiers. The defence team deployed by the Congress included prominent legal luminaries like Bhulabhai Desai, Asaf Ali, Sarat Chandra Bose, Tej Bahadur Sapru, Kailash Nath Katju and Lt. Col Horilal Varma. Even Jawaharlal Nehru scrambled for the black coat that he relinquished in 1922 and jumped to the defence of the INA soldiers at the Red Fort.

The British were rattled by these revolts and the massive popular support they received. Debates in the British House of Commons in the second half of 1946 stand testimony to it. Prime Minister Clement Atlee decided that it was time to quit India. He gave two principal reasons for his decision: One, that the Indian soldiers of the Royal Indian Army were no longer loyal to the crown, and second, that the British Army could no longer afford to send a large contingent of British soldiers to India, especially after the bloody experience of the Second World War.

Netaji's and INA's contribution to the independence struggle thus becomes no less important than that of Gandhi and Congress. The Modi government has used Amrit Mahotsav to accord appropriate recognition to that and many such contributions. A grateful nation should cherish the memories of all those great freedom fighters.

the case of Mumbai, where almost 1/4th of the land is open public space – while over half of it is the underutilised space around buildings, which is enclosed by walls and hived off from public access. Such open spaces, if available, would help cities like Mumbai achieve similar ratios as globally benchmarked cities (Amsterdam, Barcelona) in public land availability (typically above 40 per cent). India's urban density will also need to be thought through – dense construction on the peripheries of our major cities (for instance, dense construction in Delhi's suburbs. like Noida and Gurugram) will inevitably mean that public services are stretched and emissions (due to transportation to the main city) remain high.

planning education in the country — there are just 26 institutes that provide this course, producing 700 town planners each year. We already have a shortage of 1.1 million planners. More schools are needed, with a push for local IITs and NITs to have a standalone planning department. With over 8,000 towns and cities, there is a clear unmet need. a push for local IITs and NITs to have a standalone planning department. With over 8,000 towns and cities, there is a clear unmet need.

Such urbanisation will unavoidably lock India

into a high emissions future while making our

to the World Bank, climate change may re-

duce India's GDP by 3 per cent, while de-

pressing the living standards of its citizens

by 2050. Many urban experts cite technolog-

ical solutions that may save our cities - a

chain of sea walls, river embankments and

reclamations, for instance - from such po-

tential calamities. However, structural engi-

neering simply may not be an economically

and environmentally feasible option every-

where - instead, our focus must be on con-

servation. Bengaluru, with its network of in-

terconnected lakes, could have considered

Bangkok-style ferries instead of draining out

its lakes. All ongoing and upcoming urban in-

frastructure projects must be reconsidered

from a future climate resilience perspective

- does the ongoing sea reclamation for the upcoming coastal road in Mumbai make

Establishing a sense of cityhood by mak-

ing a push for a city as a co-created space will

also require building up institutional capacity.

India would ideally require 3,00,000 town and country planners by 2031 (there are just

5,000 town planners currently). Much of this

problem is fundamentally due to a lack of

town planning education in the country -

there are just 26 institutes that provide this

course, producing 700 town planners each

year. We already have a shortage of 1.1 mil-

lion planners. More schools are needed, with

sense if sea levels are rising?

Then there is climate change. According

cities prone to extreme heat and flooding.

Our policymakers also need to be cognisant of the historical context of our urban development — a push for glass buildings or utilising granite may not always be suitable for our cities. Why can't our cities look distinctly Indian, inspired by our historical architecture? Renewing our cities will require us to rethink various urban topics, including urban design, urban healthcare, affordable housing, sustainability and inclusion among others. Our urban future depends on getting this right.

The writer is a BJPLok Sabha MP

In fact, Netaji's Azad Hind Fauj or Indian

It is important to remember that all contributions were great. Nehru won't become small by making Patel big; Gandhi won't be dwarfed by making Netaji prominent.

In their lifetime, those leaders had probably disagreed but never hated each other. In fact, it was Netaji who gave Gandhi the title of the "Father of the Nation" in a message from Burma in 1944 on his 75th birthday. Why then should we politicise Modi's sincere efforts to accord a place of glory to all the freedom fighters?

### My hero, my muse

TV Sankaranarayanan danced with ragas and talas to create beauty

### T M Krishna

ON SEPTEMBER 2, India lost one of its most graceful musicians. A Karnatik musician who did not conquer music, TV Sankaranarayanan took care of her with kindness. Unfortunately, in the national news stream, artists whose impact is specific to a particular region or genre are irrelevant, and their passing is relegated to a few lines of obituary with statistics of their birthday, awards and death. This is true of TV Sankaranarayanan or TVS as he was known to all of us.

As a young teenager growing up in Madras (now Chennai), it was TVS's voice that drew me to music. He was my hero and my muse. I ran from one auditorium to another and watched this man weave looms of musical tapestry and gasped during those moments of magic. With TVS, music was an unreserved waterfall. It kept pouring down with no drought in sight. Much like how we cannot track the trajectory of every falling droplet, you never knew how his raga passages or swara torrents would move. They would swerve, bend, leap and pause almost at will. We tried desperately to keep track, moving to the edge of the seats wondering how, when and where they would land. All of a sudden everything fell into place, bringing a smile to all, including him. TVS smiled through his music. At no point were we made aware of the level of difficulty. He danced with the ragas and talas, cajoling them to help him create beauty.

He was a romantic, an idealist who wanted his music to always reflect playfulness and joy. TVS rarely sang ragas that could touch upon the morose and, even if he did, in his hands they would reflect merriment. One could critique him for this perspective and ask why he did not explore a larger canvas of emotional tones. But that is a personality trait. Music is, after all, a reflection of the person. His music in tone, pace and presentation seemed to celebrate creation. Every swara was a manifestation of this instinctive understanding.

TVS was the nephew of the musical genius, Madurai Mani Iyer. Someone who broke many preconceived notions about how Karnatik music must sound. He gave it a lilt, a sway that had never been heard before. TVS never thought of his family legacy as a burden. He revered his uncle and his music obviously had a strong influence of this heritage.

It is also true that, in our cultural traditions, the individual is always considered a carrier of the past and therefore any assertion of the "self" is seen as vulgar. TVS toed this line of thinking. But his music was not an imitation or an overt continuation of his uncle's musicality. This was unfortunately missed by many, and his music was and is al-

ways referenced to his illustrious uncle, boxing him in the Madurai Mani Iyer mould. Every aspect of TVS's music was his own. Strong influences exist in all of us but these are descriptive features, not our essential characteristics. TVS picked up the Madurai Mani Iyer style, but gave it a new direction, a verve, power, strength and flow, making it all his own. But his ancestry deprived him of this recognition. All of us spoke of his naturalness as a musician but failed to recognise the mind behind it.

Intellectualism in Karnatik music is unfortunately trapped within the four walls of arithmetic and permutational jugglery. TVS's mind was not pinned down by this construct. But we were unable to break free of this conditioning and marvel at his mind. This might not have bothered him, but we should at least now remember him as much for his ideas as we do for his presentational panache.

As his career moved ahead, TVS was found to be singing the same songs and following a repetitive creative template. A critique that does hold water. TVS became predictable and all of us knew what to expect. But this is a struggle that every established artist is tormented by. Do I continue offering the audience what they have been used to, or should I challenge them? The risk involved in change often makes an artist stick to the old chosen course. I do not know if TVS even thought of changing his musical colours. Maybe he was just singing the music he loved and did not care if some people thought that it was ridden with sameness. But, the problem of stagnancy born out of comfort affects all artists. Sometimes it is not obvious in those whose music is full of somersaults and backflips! TVS was not of that kind and hence the stasis more obvious.

Among the many musicians of his generation that I have interacted with, TVS was the only one who would discuss the deeper questions of life. He was always curious about the education at my school, which followed the teachings of J Krishnamurti. We would spend just about five minutes in these exchanges but, in those fleeting moments, I always got a feeling that this was a man who wanted to probe further but something stopped him from doing so.

Many will not remember T V Sankaranarayanan as they do a Subbulakshmi or Bhimsen Joshi, but I will remember him as the artist who graciously invited all of us to participate in Karnatik music's aural euphoria. His music has ended, and we still have a smile on our faces.

LETTERS TO THE EDITOR

### **BIASED ARTICLE**

THIS REFERS TO the article, 'Bring Beijing to book' (IE, September 23). It isfull of factual errors and misunderstands China's Xinjiang. The OHCHR's so-called assessment is orchestrated and produced by the US and some Western forces and is completely illegal, null and void. It is a patchwork of disinformation that serves as a political tool for these countries to strategically use Xinjiang to contain China. This seriously violates the mandate of the OHCHR and the principles of universality, objectivity, non-selectivity and non-politicisation. It once again shows that the OHCHR has been reduced to an enforcer and accomplice of some Western forces in forcing the developing countries to fall into line with them. The issues related to Xinjiang are not about human rights, ethnicity or religion. They are about fighting terrorism and separatism. The government's counter-terrorism and de-radicalisation measures have substantially turned the security situation around in Xinjiang.Xinjiang has enjoyed sustained economic growth, social harmony and stability, better living standards, cultures thriving like never before, and freedom of religious beliefs and religious harmony in recent times. Nearly 100 countries, including Muslim countries, have spoken up at the UN

Human Rights Council and on other public occasions to support China's legitimate position on issues including Xinjiang and oppose interference in China's internal affairs.

Press Office of Chinese Embassy in India

### WHO'S RESPONSIBLE?

THIS REFERS TO the editorial, 'Profit in hate' (IE, September 23). The media is not immune to the prevailing political climate. Television channels curate offensive debates because there is public endorsement of such mischief. Who is responsible for unleashing this sentiment? The complicity of the present government cannot be denied. The court's intervention is welcome. But it will be effective if the government changes its agenda.

SSPaul, Nadia

### TOUGH TO REGULATE

THIS REFERS TO the report, 'RBI to Mahindra arm: Halt recovery via third parties' (IE, September 23). The Jharkhand incident highlights that the matter at hand is sensitive and where lenders draw a line is of utmost importance. RBI may have a proper code in place, but implementing them in letter and spirit is a different ball game.

Bal Govind, Noida

14 THE INDIAN EXPRESS. ### CJI at Justice Banerjee IS-linked suspects wanted to farewell: Collegium always picks the best

### **EXPRESS NEWS SERVICE** NEW DELHI. SEPTEMBER 23

CHIEF JUSTICE of India U U Lalit on Friday responded to criticism that women lawyers from the Supreme Court were not being considered for elevation to the bench as the Collegium "is not interested in getting good people", saying the "collegium always picks up the best of the lot".

'At the outset I must say that the Collegium always picks the best of the lot", the CJI said addressing a farewell organised by the Supreme Court Bar Association (SCBA) for Justice Indira Banerjee who retired Friday. The CJI was responding to comments by SCBA president Vikas Singh.

Singh who spoke before the CJI said that with the retirement of Justice Banerjee, "we are losing a very fine judge". He added that "there was a time when we had four lady judges. And now again, we will be back to three lady judges. I beseech the CJI to not only fill up 2-3 vacancies to the Supreme Court with lady lawyers, but also ensure every High Court in the country has a reasonable number of lady judges. Patna High Court has no lady judge and we have so many good lawyers practising in our court who are willing to go there...But, unfortunately, be-

### **UP** Assembly passes Bill against anticipatory bail to accused in rape, **POCSO offences**

### **EXPRESS NEWS SERVICE** LUCKNOW, SEPTEMBER 23

THE UTTAR PRADESH Assembly on Friday passed the Code of Criminal Procedure (Uttar Pradesh Amendment) Bill, 2022, that denies granting of anticipatory bail to rape accused and those booked under the Protection of Children from Sexual Offences (POCSO) Act.

The Bill that was tabled in the House on Thursday proposed an amendment in section 438 of the CrPC. 1973. with rerards to the state. The section defined the powers of the high court or a sessions court to give anticipatory bail. Affairs Parliamentary Minister Suresh Kumar Khanna told the House that denying anticipatory bail in sexual offences against young people and women will reduce the chances of the accused destroying the evidence, he said. The Assembly also passed another Bill amending the Uttar Pradesh Recovery of Damage to Public and Private Property Act, 2020, to provide compensation to the families of those killed in the incidents of riots, demonstration, protest, strike and bandh and those rendered disabled in such incidents. The amendment also provides judicial discretionary powers to the claims tribunal for the purpose of "condoning delays in filing of claims petitions, to take suo motu cognisance of the case and to provide compensation to those injured during a hartal, bandh, riot or some public commotion".

cause of this system that we are following today, the Collegium system...is not interested in getting good people, best people, so these elevations are not

happening" The SCBA has for long been batting for elevation of more lawyers to the SC and High Court benches

The CJI said Justice Banerjee with her "calm, quiet composure" made "exemplary and immense contribution" to the legal profession. He recalled some of her important judgments, including the latest wherein a fivejudge Constitution bench held

that a majority judgment of a larger bench would prevail over even a unanimous decision by a bench of lesser strength. He called it a "beautiful judgment". Justice Banerjee said she is

reminded of the day 34-36 years ago when she first set foot in the SC "as a shy, diffident junior, coming...to do a case from the Calcutta High Court", adding, "I would never have imagined then that one day I will be addressing a farewell speech from this podium".

**EXPRESS NEWS SERVICE BENGALURU. SEPTEMBER 23** 

THE SUSPECTED Islamic Stateinspired terrorists, who were arrested here earlier this week. wanted to establish a Caliphate

and impose Sharia law in the country as they believed India has not yet achieved its freedom, police said Friday. The Karnataka police said

they were on the lookout for the prime accused in the terror case registered in Shivamogga with alleged links to the banned IS.

The accused has been identified as Shariq (24), a resident of Thirthahalli in Shivamogga. Two others - Maaz Muneer Ahmed (22) and Syed Yasin(21) – both engineering graduates, were nabbed earlier this week.

"They believe that just how IS operates and declares war against the non-believers/kafirs through jihad to uplift Islam, they too should carry out jihad against the kafirs and have stored material required to make explosives for the purpose," said

a police statement. They said the accused had learned the concept of making bombs from videos and PDF files and used cryptocurrency to procure explosives required for the bomb. The two arrests were made this week following an investigation into a stabbing inci-

dent reported in Shivamogga city ahead of Independence Day. One Prem Singh was allegedly stabbed by the accused following a fracas over putting up a poster of Savarkar at Shivamogga's Ameer Ahmed Circle.

establish Caliphate in India: cops

Shariq and Maaz were arrested by the Mangaluru city police in December 2020 for painting a pro-terror graffiti on the wall of a building in the coastal city.

Shivamogga SP BM Laxmi Prasad said Yasin had met Maaz while studying pre-university college and Maaz then introduced Yasin to Shariq, who allegedly used to discuss "fundamental ideas and concepts of jihad". Shariq used to send PDF files, audio and video files, and other links related to extremism, radicalisation, works of ISIS and other terror outfits through various encrypted messenger apps. The accused were found to be members of Telegram channels run by ISIS's official media centre, according to the police.

"As an experiment, the accused had exploded a bomb they made at Kemmangundi on the banks of the Tunga and it was successful," a statement by the SP said.

The trio had also "stored explosives to perform jihad in the near future". "In the days following Independence Day, the national flag was burnt near the spot where the experimental bomb was exploded," the SP said.

### 2 held as Punjab Police busts **ISI-backed terror module**

EXPRESS NEWS SERVICE CHANDIGARH, SEPTEMBER 23

THE PUNJAB Police Friday claimed to have busted an ISIbacked terror module jointly handled by Canada-based gangster Lakhbir Singh alias Landa and Pakistan-based gangster Harvinder Singh Rinda with the arrest of two of its operatives.

Landa is considered to be a close aide of Rinda, who had joined hands with Babbar Khalsa International (BKI), and the duo has close ties with the ISI, Punjab DGP Gauray Yaday said, Landa had played a key role in planning the rocket propelled grenade (RPG) attack at Punjab Police Intelligence Headquarters in Mohali in May. He is also behind the planting of an Improvised Explosive Device under the car of Sub Inspector Dilbag Singh in Amritsar on August 16.

Those arrested have been identified as Baljit Singh Malhi of village Jogewal in Ferozepur and Gurbaksh Singh alias Gora Sandhu of village Buh Gujran in Ferozepur.

DGP Yadav said in an operation led by Additional IG (counter intelligence), Jalandhar,

Arms and ammunition was also seized. Express

Navjot Singh Mahal, police teams also seized one AK-56 assault rifle along with two magazines, 90 cartridges and two bullet shells from a location pinpointed by Gurbaksh Singh at his village.

He said preliminary investigations revealed that Malhi was in touch with Italy-based Harpreet Singh alias Happy Sanghera, and on latter's directions, Baljit Singh had picked a consignment of weapons from Makhu-Lohian road in Sudan village in July 2022. Later, they concealed the consignment in fields owned by Gurbaksh Singh after conducting test fires, he added.

The DGP said it has also been ascertained that Baljit Singh was in direct contact with Landa and Arsh Dalla

### 2 men abducted from Nashik rescued in Dang, 5 held: Police

### **EXPRESS NEWS SERVICE** SURAT, SEPTEMBER 23

DANG POLICE Thursday rescued two persons, including a finan-cial investment advisor, from Maharashtra who were allegedly abducted by a gang and arrested five persons in connection with the incident.

According to police, on Thursday night, police personnel stationed at Saputara check post in Dang, neighbouring to Nashik, heard people crying for help from two cars which passed by. When they stopped the cars, police found two persons in the car who claimed that they were being kidnapped.

Police seized the cars and rescued the two persons, who were identified as Yogesh Bhalerao (45), a financial investment advisor who is a resident of Adgaon in Nashik, and his cousin brother Mahendra Gaekwad (46). Police also claimed to have recovered a country-made pistol with three live cartridges and a knife from the kidnappers.

The five persons, identified as Vinit Ihatle (45). Vinod Dangre (47), Santosh Shinde (51), Rahul Ghavvat (41), and Bharat Deore (33), all residents of Adgaon were arrested and booked under IPC sections 342 (wrongful confinement), 114, 25(1)(b)(a)(possession of arms).

# Haryana: Heavy rain spells doom for basmati belt

ANJU AGNIHOTRI CHABA JALANDHAR, SEPTEMBER 23

HEAVY RAIN damaged the standing paddy crop in many parts of India's main basmatigrowing belt of Haryana, giving way to demands from farmers to let them sell their produce directly to rice mills instead of state-owned APMC (agricultural produce market committee) mandis.

Raghbir Singh, a farmer from Dadupur Roran village of Karnal district, had only three days back harvested the early-maturing Pusa-1509 basmati variety on wo of his five-acre land. He

Bullet train project: Bids issued for underground tunnel construction work on the project has picked

### **EXPRESS NEWS SERVICE** NEW DELHI, SEPTEMBER 23

THE NATIONAL High Speed Rail floated and withdrawn being re-Corporation invited bids Friday newed again. This is the third atfor the construction of a 21-km tempt to get this tender off the underground tunnel in block. The first time the tender Maharashtra for the bullet train was floated was in 2019. but it project, an official statement did not find any takers. The secsaid, in a signal that the marquee ond time was in November 2021. project has crossed land acqui-To be built over an estimated period of five years, the tunnel

sition hurdles in the state. The tunnel is the biggest and most complex piece of civil engineering work for the 502-km Ahmedabad-Mumbai bullet train corridor. A 7-km stretch of the tunnel will be under the sea. Non-availability of land in Maharashtra was a maior reason the tender was cancelled in 2021.

> As reported by The Indian Express earlier this month, the

firms may also tie up with international companies and vie for the contract, officials said.

The 7-km undersea tunnel at tenders which were previously Thane creek will be the first such tunnel to come up in the country. It will be a single-tube tunnel that accommodates twin tracks. The section will include the construction of 39 equipment rooms at 37 locations adjoining the tunnel location.

This tunnel will be about 25 to 65 metres deep from the ground level and the deepest construction point will be 114 metres below the Parsik hill near Shilphata. The last date for bid submis-

trict. It will be built using a boring machine and "the New sion is January 19 next year. Austrian Tunnelling Method With the change in govern-

ment, officials claim that nearly 96 per cent of the land for the project has been acquired in the state

quite buoyant, as the variety was fetching Rs 3,500-3,600 per quintal, as against last year's Rs 2,800-2,900.

But he couldn't sell the produce due to strike by arhtiyas (commission agents) in Haryana for the past 3-4 days. He, then, decided to store it in his cattle shed. His problems have now compounded by the continuous rain over the last two days, which has also affected the crop on the remaining three acres.

'The high moisture in the grain will lead to discolouration or even germination, bringing down its price," said Raghbir, who wants the government to allow him to sell directly to rice millers/shellers. "They have paddy driers, unlike the APMCs, to bring down the moisture and prevent deterioration of the grain," he added.

On Friday, the entire basmati belt from Sonepat and Panipat to Karnal, Kurukshetra and Ambala received heavy showers. Worse, there is forecast for more in the

next two days.

#### "The damage will be mainly standing crop," said Jatinder to short-duration basmati vari-Miglani, a farmer from Faridpur eties such as Pusa-1509 and village in Karnal district's Pusa-1692, and also PR-126 (a non-basmati variety), which placing his hopes now on his mature in 115-125 days. BENGALURU, SEPTEMBER 23

A SPECIAL court in Karnataka has rejected the bail plea of . Muruga Gharaunda tehsil. Miglani is Shivamurthy Sharanaru, the head of the Pusa-1121 crop on another 20 Murugarajendra Mutt in the Chitradurga district of the state. Vijay Setia, former president who is an accused in a sexual assault case involving two minor

> students. The special court rejected the bail petition of the religious leader on Friday, a day after it turned down a similar plea of a hostel warden, accused of abetting the crime. Both were arrested by the Chitradurga police earlier this month in connection with the sexual assault case to which sections of the Protection of Children from Sexual Offences (POCSO) Act were also added.

On Thursday, the Chitradurga court rejected a plea by a manager of the mutt and an advocate linked to the religious centre for producing phone call details and conversations of the two minor victims and people who helped them file the sexual assault case.

Last week, the court had rejected an anticipatory bail plea of a junior priest of the Mutt - a minor – booked under the POCSO Act. The court rejected the plea of the 17-year-old on the grounds that there is no question of arrest of a juvenile as per law. The court also stated that the age of a juvenile who is in conflict with the law would have to be determined by the Juvenile Iustice Board.

The complaint against the religious leader was lodged on behalf of the victims by the Mysuru region's Child Protection Unit officer Chandrakumar Con August 26. It was later transferred to the Chitradurga rural police. A total of five people have been accused in the case.

Earlier this week, the court allowed the transfer of the mutt head from prison to the McGann district hospital in the Shivamogga district on health grounds.

### BJP sees 'plot' in Bengal rly blockade, says Kurmi stir riding on TMC steam

#### **SANTANU CHOWDHURY** KOLKATA, SEPTEMBER 21

AMIDST THE fast-changing political equations since the Bihar upheaval blew the Opposition space wide open, an agitation by groups seeking Kurmi Scheduled Tribe reservation is now emerging as a flashpoint.

For the fourth day on Friday, members of the Adivasi Kurmi Samaj carried out a rail and road blockade in Paschim Medinipur and Purulia districts in West Bengal, seeking ST status and inclusion of the Kurmali language in the Eighth Schedule of the Constitution. Train services continued to be affected in the South Eastern Railway (SER) Division, with over 205 trains cancelled so far, while hundreds of goods carriers and buses were stranded on the blockaded NH-6. The unsaid backdrop to this

is JD(U) leader Nitish Kumar's status as the tallest leader of the Kurmi community, which has presence across eastern India, including Bihar, Uttar Pradesh, Odisha, Jharkhand and West Bengal. The Kurmi stir, also observed in Iharkhand and Odisha. has coincided with Nitish's split from the BJP and tentative foray into national politics.

In a speech earlier this month, West Bengal CM Mamata Banerjee named Nitish as one of the leaders her party would come together with to fight the 2024 Lok Sabha polls. On Friday, the West Bengal

BJP accused the ruling Trinamool Congress of "instigating" the Kurmis to continue their protest. BJP national vice-president Dilip Ghosh said, "Kurmis are seeking

Members of Adivasi Kurmi Samaj continue with their rail blockade in Purulia district on Friday. Express

ST status. This is their longstanding demand. Today we have a specific commission for these communities, which looks after such things. It takes into account social and economic as-

pects before granting ST status to a community. It is not possible to get reservation by putting up road blockades. There is a procedure. The matter has to go through Parliament as well."

protest affects the economy of the state and the country. Ghosh said the TMC was ensuring that it continues. "They want political mileage out of it. This is a conspiracy to malign the image of Prime Minister Narendra Modi. There should be a limit to politicising everything."

Saying that this kind of

The TMC hit back, asking why the Centre had been sitting on the Kurmi demands for so long, and noting that the ball was in its court. "It is a sensitive issue... The state government is sensitively looking into their demands. But one has to understand that the state government cannot solve their problems, the Central government has the powers and position to do so. Unless the Centre approves their demand, the state government cannot take any constitutional

measures regarding it," TMC state general secretary Kunal Ghosh said, adding that the protest was affecting the livelihoods of people.

TMC Rajya Sabha MP Santanu Sen said the Centre was to blame for the protest continuing. "The Railways falls under the Centre. Why are RPF (Railway Protection Force) personnel not acting to remove the blockade from the tracks?" Sen asked.

Escalating the row several notches up, the West Bengal Backward Classes Welfare Department Secretary, Sanjay Bansal, wrote a letter to the Central government's Tribal Research Institute (TRI), and Secretary, Ministry of Tribal Affairs, Anil Kumar Jha Friday, requesting them to look into the demands of the Kurmi Samaj. A copy was sent to the protesting Kurmi

### **SECTOR WATCH** FOREIGN EXCHANGE

### **Forex reserves** continue to fall amid rupee slide, down by \$5.2 bn

EXPLAINED ENSECONOMICBUREAU NEW DELHI, SEPTEMBER 23

THE NATION'S forex reserves saw another massive fall during the week September 16, as they fell by \$5.22 billion to \$545.65 billion, data from the Reserve Bank of India (RBI) showed on Friday.

While some part of the decrease could be due to valuation changes, currency experts said much of it would be due to the central bank intervening in the currency market to prevent the rupee from depreciating more sharply against the US dollar.

The RBI has been dipping into the reserves to deploy dollars in the currency market, amidst volatility caused by a strengthening dollar. Experts estimate the central bank has sold around \$35 billion in the currency markets since April. On Thursday, the rupee closed below the 80 mark against the dollar.

The fall in the reserves as of September 16 was due to a dip in the foreign currency assets (FCA), a major component of the overall reserves, according to the Weekly Statistical Supplement released by the RBI on Friday.

The FCA fell by \$4.69 billion to \$484.90 billion, the banking regulator said.

Expressed in dollar terms, lowed to remit up to the FCA includes the effect of \$250,000 every year. **FE** 

## DRAFT LAW FLOATED ON WEDNESDAY **Telecom Bill consultations on,** 6-10 mths timeline: Vaishnaw

**ENS ECONOMIC BUREAU** NEW DELHI, SEPTEMBER 23

PROPOSED Indian THE Telecommunication Bill will be in place over the next six to ten months, Union Minister of Communications Ashwini Vaishnaw said Friday, adding that the government was in no hurry to implement the law.

The draft law, which seeks to replace the 137-year old Telegraph Act, in addition to the Indian Wireless Telegraphy Act, 1933 and the Telegraph Wires (Unlawful Possession) Act, 1950, was floated on Wednesday.

"Based on the consultation process, we will create the final draft. That draft will then go through committee processes of Parliament. Then it has to go (to) Parliament. I see a timeline of 6-10 months but we are not in a hurry," Vaishnaw told reporters, when asked about a timeline for

**Communications Minister** Ashwini Vaishnaw in New Delhi, Friday. PTI

implementation of the final Bill. Among other things, the Bill proposes to bring under the licensing regime over-the-top (OTT) communication services like WhatsApp, Signal, Telegram - an issue on which the Telecom Department has already sought reference from the Telecom **Regulatory Authority of India** (TRAI). Vaishnaw said, "OTT already comes under regulation by

interpretation of what is a telegraph. The consultation process for its regulation has already started. The focus of this bill is that we have to make a light touch regulatory environment. Wherever required there should be strict effective regulation and in rest of the places there will be light touch regulation."

The new Bill looks at defining OTT communication services, emails, satellite-based communication, etc as part of the broader term "telecommunication services". It also proposes that these telecommunication services be covered under a licensing regime, which includes complying with a government directive to intercept communications in the interest of "sovereignty, integrity or security of India, friendly relations with foreign states, public order, or preventing incitement to an offence". When asked whether en-

crypted platforms will have to

break encryption to comply with the rules, the minister said: "There is no question of forcing decryption. There is no provision in this. For interception, on the basis of a very clear judgment by the Supreme Court, there is a clear mechanism with checks and balances – that mechanism for interception has been going on for several years and there is no change to that."

When asked about what other mechanism would the government operate on the basis of, if not decryption, he said: "All the issues related to national security, public order are well established as per the Supreme Court guidelines. There are clear checks and balances in place. The system which is in operation, the same system exactly has been put in here. The change is from telegraph and its subsequent interpretation to telecom ... "

### Wall Street falls 2% BRIEFLY amid recession fears

### REUTERS

### World Bank

Bankcredit

Mumbai: Banking system's credit growth at the end of

the June guarter accelerated

to 14% as against the year-

ago period, the RBI said. PTI

Washington: World Bank President David Malpass said none of the global development bank's shareholders have asked him to resign despite criticism this week after he declined to say if he accepts the scientific consensus on global warming. REUTERS

### Fisker, Mallawa

New Delhi/Chennai: US startup Fisker Inc will start selling its Ocean electric SUV in India next July and could start local manufacturing in a few years, said CEO Henrik Fisker. Meanwhile, USheadquartered Mallawa Ventures Inc has drawn up plans to invest about \$1 billion in Tamil Nadu to make hydrogen-powered electricbuses by 2030, its president and CEO Raj Karan said. PTI

### SG Awasthi

New Delhi: SG Awasthi, former chairman & managing director of Daewoo Motors India Ltd and former managing director of Jaypee Hotels, passed away Thursday in Noida at the age of 79. He is survived by his wife and two sons. ENS

### **BENGALURU, SEPTEMBER 23**

WALL STREET'S main indices slid more than 2 per cent on Friday as investors feared the US Federal Reserve's hawkish policy actions to quell inflation could trigger a recession and dent corporate earnings.

The Dow was briefly down over 20 per cent from its January 4 record all-time closing peak of 36,799.64 points. A close of 20 per cent or more below that level would confirm the blue-chip index was in a bear market, as per a widely used definition. The S&P 500 and the Nasdaq are already in a bear market.

At 12:38 p.m. ET, the Dow Iones Industrial Average was down 683.65 points, or 2.27 per cent, at 29,393.03, the S&P 500 was down 90.12 points, or 2.40 per cent, at 3,667.87, and the Nasdaq Composite was down 259.07 points, or 2.34 per cent, at 10,807.74. All the three indexes were set for sharp weekly losses. After enjoying hefty gains for

last two years, Wall Street has been rocked in 2022 amid worries about a host of issues including the Ukraine conflict, China Covid-19 flare ups, energy crisis in Europe and tightening financial conditions across the globe. A half dozen central banks

including in the US, UK, Sweden, Switzerland and Norway delivered rate hikes this week to fight inflation, but it was the Fed's signal that it expects high U.S. rates to last through 2023 that caught

# executive V

New Delhi: bakery fo pany Britannia Indu Friday announced the ment of Rajneet Kohli tive director and chief officer of the firm.

It has elevated th bent Varun Berry to th executive vice-chair managing director wi diate effect, Britannia I Ltd said in a statement

Kohli's appointment effect from September He will report to Berry

"I am delighted to Kohli to Britannia. Hi ence of building highance businesses and j brands is strongly aligi vision of becor Responsible Global To Company," Berry said.

#### Crude at 8-month low

markets off guard.

Benchmark vields

New York: US benchmark

10-year yields jumped to

12-year highs on Friday and

two-year yields were the

highest since 2007 as in-

vestors fretted that central

banks globally will keep

tightening monetary policy

to tackle soaring inflation.

Protected Securities, which

account for expected infla-

tion and are known as real

yields, reached 1.426 per

cent Friday, the most since

February 2011. **REUTERS** 

Treasury

Yields on 10-year

Inflation-

at 12-year highs

Meanwhile, oil prices dove over 5 per cent to an eightmonth low as the U.S. dollar hit its strongest level in more than two decades and on fears rising interest rates will tip major economies into recession.

Brent futures fell \$4.75. or 5.3 per cent, to \$85.71 a barrel by 1606 GMT. US West Texas Intermediate (WTI) crude fell \$5.19, or 6.2 per cent, to \$78.30. It was the fourth straight week of declines for both benchmarks, the first time since December 2021. Both were technically oversold, with WTI on track for its lowest settlement since January 5 and Brent for its lowest since January 13.

### THIS WORD MEANS

### **CARBON DATING**

The process petitioners want used on the structure said to be a Shivling at Varanasi's Gyanvapi mosque

Outside the Gyanvapi mosque in Varanasi earlier this year. Anand Singh

#### **AMITABH SINHA** PUNE, SEPTEMBER 23

A VARANASI court on Thursday allowed a petition seeking carbon dating of the structure inside Gyanvapi mosque that the Hindu side has claimed is a Shivling. The court issued notices to other parties asking if they have any objections to carrying out the process.

### **Carbon dating**

Carbon dating is a widely-used method to establish the age of organic materials, things that were once living. Living things have carbon in them in various forms. The dating method is based on the fact that C-14, an isotope of carbon with an atomic mass of 14, is radioactive, and decays at a well known rate.

The most abundant isotope of carbon in the atmosphere is carbon-12. A very small amount of C-14 is also present. The ratio of C-12 to C-14 in the atmosphere is almost static, and is known.

Plants get their carbon through photosynthesis; animals get it mainly through food. Because plants and animals get their carbon from the atmosphere, they too acquire C-12 and C-14 in roughly the same proportion as is available in the atmosphere.

When they die, their interactions with the atmosphere stops. While C-12 is stable, the radioactive C-14 reduces to one half of itself in about 5,730 years - known as its 'half-life'. The changing ratio of C-12 to C-14 in the remains of a plant or animal after it dies can be measured, and can be used to deduce the approximate time when the organism died.

### Non-living things

Though extremely effective, carbon dating cannot be applied in all circumstances. It cannot be used to determine the age of non-living things like rocks, for example. Also, the age of things that are more than 40.000-50.000 years old cannot be arrived at through carbon dating. This is because after 8-10 cycles of half-lives, the amount which enable scientists to reliably estimate the age of very old objects.

Two commonly employed methods for dating rocks are potassium-argon dating and uranium-thorium-lead dating. The radioactive isotope of potassium decays into argon, and their ratios can give a clue about the age of rocks. Uranium and thorium have several radioactive isotopes, and all of them decay into the stable lead atom. The ratios of these elements present in the material can be measured and used to make estimates about age.

There are also methods to determine how long an object has remained exposed to sunlight. These apply different techniques, but are again based on radioactive decays and are particularly useful in studying buried objects or changes in topology. The most common of these is called cosmogenic nuclide dating, or CRN, and is regularly applied to study the age of ice cores in polar regions.

In some situations, carbon dating can be used indirectly as well. For example, a way in which the age of ice cores in glaciers and polar regions can be determined is by studying carbon dioxide molecules trapped inside large ice sheets. The trapped molecules have no interaction with the outside atmosphere, and are found in the same state as when they were trapped. Determining their age gives a rough estimate of the time when the ice sheets were formed.

How long a rock has been at a particular place can also be determined similarly organic materials like dead plants or insects trapped underneath can give an indication of when that rock reached that place.

### The Gyanvapi case

While the petitioners have specifically sought carbon dating, any method that ascertains the date of the structure would suffice. In this case, the petitioners' purpose is likely to be served if it is established that the structure existed at that place before the mosque came up.

But there are specific limitations. The structure cannot be uprooted or disrupted.

# Why India wants war to end

**SIMPLY PUT** 

This isn't the era of war, Modi told Putin, reiterating a consistent Indian line. Russia is India's major military goods supplier, and with the crisis on the LAC still not fully resolved, New Delhi is beginning to worry

#### SHUBHAJIT ROY NEW DELHI, SEPTEMBER 23

FORTY YEARS ago, on September 21, 1982, India and the Soviet Union agreed that the primary task before the world was to avert a nuclear war. Meeting in the Kremlin, then Prime Minister Indira Gandhi and Soviet President Leonid Brezhnev agreed on the need to reduce tension by promoting trust.

While the Indian PM called upon the superpowers to desist from stockpiling weapons, Brezhnev proposed that the NATO and the Warsaw Pact declare that they would refrain from extending their sphere of activity to Asia, Africa and Latin America.

Russian news agency TASS described the talks as "warm and friendly", and said the two leaders "are against the setting up of foreign military bases on the territory of Asian states, against military, political and economic pressure on sovereign states".

Indira, who declared that India is a nonaligned state, did not condemn the Soviet intervention in Afghanistan.

At the same meeting, the Indian PM announced that two IAF test pilots had been selected for the coveted Indo-Soviet space flight of 1984 - Squadron leader Rakesh Sharma and Wing Commander Ravish Malhotra.

### Cut to 2022: Modi-Putin meet

On September 16, Prime Minister Narendra Modi met Russian President Vladimir Putin on the margins of the Shanghai Cooperation Organisation (SCO) Summit in Samarkand in Uzbekistan.

Modi told Putin: "I know that today's era is not of war and we have spoken to you many times on the phone that democracy, diplomacy, and dialogue are such things that touch the world. Today, we will get a chance to discuss how we can move forward on the path of peace in the coming days. I will also get an opportunity to understand your viewpoint."

Putin responded: "I know your position on the conflict in Ukraine, your concerns that you constantly express.'

Modi's comment has caught the world's attention, seven months into the war. The Indian PM - who has steadfastly stayed away from criticising Putin - has articulated what is music to the ears of Western powers.

Days later, French President Emmanuel Macron and US NSA Jake Sullivan voiced support for Modi's comments.

Macron also said that countries which have chosen to be "neutral" and "nonaligned" are "mistaken", and have a historical responsibility to speak out. In his speech at the United Nations

General Assembly on Tuesday, Macron said: "Narendra Modi. the Prime Minister of India.

PM Modi recently met President Putin at the SCO Summit at Uzbekistan. PTT

was right when he said the time is not for war. It is not for revenge against the West, or for opposing the West against the East. It is a collective time for our sovereign equal states to cope together with challenges we face."

In Washington DC, Sullivan said: "I think what Prime Minister Modi said – a statement of principle on behalf of what he believes is right and just – was very much welcomed by the United States."

All countries should follow the principle that one cannot conquer its neighbour's territory by force, Sullivan said.

### State of Putin's Russia

The Russian President, instead, announced a "partial mobilisation" on September 21. Many analysts in the West have interpreted this as a dangerous move by Putin, who is facing the heat from the war that he had likely assumed would be quick and painless.

What is interesting though is how Putin's speech unfolded. Anne Applebaum, the Pulitzer Prize-winning author of Gulag: A History and a former columnist for The Washington Post, wrote in The Atlantic, "If an American President announced a major speech, booked the networks for 8 pm, and then disappeared until the following morning, the analysis would be immediate and damning: chaos, disarray, indecision. The White House must be in crisis.

"In the past 24 hours, this is exactly what happened in Moscow. The Russian President really did announce a major speech, alert state television, warn journalists, and then disappear without explanation. Although Vladimir Putin finally gave his speech to the nation this morning, the same conclusions are sold out until at least Friday, according to Russian outlet RBC.

Politico also said that seats on Turkish Airlines direct flights from Moscow to Istanbul have jumped from Euro 350 to Euro 2,870.

The Associated Press reported that over 800 Russians have been arrested in anti-war protests in 37 Russian cities, including Moscow and St Petersburg.

### View from the outside

While Modi's comments grabbed headlines, what is quite significant is Putin's comments in Samarkand, at the meeting with Chinese President Xi Jinping, where the Russian President acknowledged that Xi Jinping has "questions and concerns" about his war in Ukraine.

Many analysts have viewed this as a critical turn: This, for the first time, signalled that Beijing is seeking to distance itself from the Russian actions.

The Russia-China axis has been a worry for the West, and particularly for India.

#### India's concerns

At a time when India is dependent on Russia for 60% to 70% of its defence requirements, Russian arms supplies might be under stress, worry Indian officials. This has been flagged earlier by Western officials, which has been downplayed by New Delhi.

But as the Russian army is seemingly struggling to get more men, the worry is getting bigger for New Delhi.

It is not yet clear how many of these reservists are fit to fight or have enough weapons. From India's perspective, the message to Moscow is loud and clear: end the war, and get back to business-as-usual.

Indian Army Chief Gen Manoj Pande underlined this week that "two friction points" along the Line of Actual Control in eastern Ladakh remain, obliquely referring to the stalemate at the Depsang plains and Charding La nullah in Demchok.

India is now bracing for a third winter with about 60,000 troops mobilised along the India-China border, and defence supplies from Moscow looking stretched. Some in New Delhi feel that it is in India's interest as well that the war in Ukraine ends quickly.

From New Delhi's perspective, Prime Minister Modi has not said anything new. But framing it publicly and clearly is a powerful message that New Delhi needs Moscow to ensure a resilient and reliable supply chain for its defence needs.

It would appear that from Indira Gandhi to Narendra Modi, the message to their Russian counterparts about abandoning war has been consistent, as it has been in India's interest in strategic cooperation with Russia in areas from space to defence.

have to apply: chaos, disarray, indecision. The Kremlin must be in crisis.

Putin's move to mobilise as many as 3 lakh reservists - individuals who have completed their mandatory conscript service comes at a time when Ukrainian and Russian forces are locked in battles over territory in eastern and south-eastern parts of Ukraine.

The US-based Institute for the Study of War, which has been tracking the war since February 24, has said that Putin's announcement "reflected many problems Russia faces in its faltering invasion of Ukraine that Moscow is unlikely to be able to resolve in the coming months... It may suffice to sustain the current levels of Russian military manpower in 2023 by offsetting Russian casualties, although even that is not yet clear. It will occur in deliberate phases, Russian Defence Minister Sergei Shoigu said in an interview on September 21, likely precluding any sudden influx of Russian forces that could dramatically shift the tide of the war. Russia's partial mobilisation will thus not deprive Ukraine of the opportunity to liberate more of its occupied territory into and through the winter."

Putin's gambit, along with the Kremlin's thinly-veiled nuclear threats, have raised alarm inside Russia as well.

Soviet-era pop legend Alla Pugacheva spoke out against the war in Ukraine on social media, TASS reported, and is being investigated by the authorities for "discrediting" the Russian army.

Politico reported that seats on flights out of Russia have skyrocketed in price - and are selling out. Direct flights from Moscow to countries that don't require visas to enter including Turkey, Azerbaijan and Armenia —

of C-14 becomes almost undetectable.

There are other methods to calculate the age of inanimate things, many of which are based on the same principle as carbon dating. Instead of carbon, decays of other radioactive elements that might be present in the material become the basis for the dating method. These are known as radiometric dating methods. Many of these involve elements with half-lives of billions of years,

so methods like looking for trapped organic material beneath it might not be feasible.

There are other possible solutions. Stylistic comparisons of artefacts like a Shivling are a good way to determine the period to which it belongs. Temples and idols usually follow distinctive styles of the period and place where they are situated. Archaeological excavations in the vicinity can also reveal clues to the period it belongs.

### What banking liquidity going into deficit mode means

### **HITESH VYAS** NEW DELHI, SEPTEMBER 23

FOR THE first time since May 2019, the banking system liquidity situation went into a deficit mode of Rs 21,873.4 crore on September 20. By comparison, the liquidity surplus was to the tune of Rs 8 lakh crore in November 2021 as the Reserve Bank of India (RBI) was providing liquidity support to the economy dealing with the impact of the Covid-19 pandemic. On September 20, 2021, the liquidity surplus was Rs 6.7 lakh crore.

#### What is banking system liquidity?

Liquidity in the banking system refers to readily available cash that banks need to meet short-term business and financial needs. On a given day, if the banking system is a net borrower from the RBI under the Liquidity Adjustment Facility (LAF), the sys-

tem liquidity is said to be in deficit, and if the banking system is a net lender to the RBI, the system liquidity is said to be in surplus. The LAF refers to the RBI's operations through which it injects or absorbs liquidity into or from the banking system.

### What has triggered this deficit?

Multiple factors are at play here: an uptick in the bank credit, advance tax payments by corporates, and also incremental deposit growth not keeping pace with credit demand

If an improvement in demand for credit has led to the situation, the recent advance tax outflow, which is a quarterly phenomenon, has aggravated it further.

Besides, there is the continuous intervention of the RBI to stem the fall in the rupee against the US dollar.

"The deficit in the liquidity situation has been caused by an uptick in the bank credit, advance tax payments by corporates, intervention of the RBI into the forex market, and also incremental deposit growth not keeping pace with credit demand," said D K Pant, chief economist, India Ratings

According to the latest RBI data, the outstanding bank credit stood at Rs 124.58 lakh crore as on August 26, 2022, and has increased by 4.77% (Rs 5.7 lakh crore) from Rs 118.9 lakh crore as on March 25, 2022. However, deposit growth was of just 3.21% (Rs 5.3 lakh crore) at Rs 169.94 lakh crore as on August 26, 2022, from Rs 164.65 lakh crore as on March 25, 2022.

#### How will this impact consumers?

A tight liquidity condition could lead to rise in the government securities yields and subsequently lead to a rise in interest rates for consumers too. The 10-year government bond vield has increased to 7.23% on September 21 this year from 7.18% on August 20. Bank of Baroda's economist Dipanwita Mazumdar said the short term rates would increase at a faster pace as the direct reflection of tighter liquidity.

"We expect another 50 basis points (bps) rate hike by the RBI in the current cycle with terminal repo of around 5.9-6%," she said.

Rise in the repo rate will lead to higher cost of funds. Banks will increase their repolinked lending rates and marginal cost of funds based lending rate (MCLR), to which all loans are linked.

### How can RBI deal with this situation?

If the current liquidity deficit situation is temporary and is largely on account of advance tax flow, the RBI may not have to act, as the funds should eventually come back into the system. However, if it is longer term in nature, then the RBI may have to take measures to improve the liquidity situation in the system.

# Why CUET-UG 'normalises' marks, and how it differs from other scoring systems

#### SOURAV ROY BARMAN NEW DELHI, SEPTEMBER 23

MORE THAN a week after the announcement of the CUET-UG (Common University Entrance Test-Under Graduate) results, students continue to have doubts over the assessment and scoring system followed by the National Testing Agency (NTA) in preparing "normalised" marks that will be considered by the universities in carrying out admissions.

The NTA and the University Grants Commission (UGC) maintain that the normalisation of marks is the best method available to offer a level playing field to all candidates who took the entrance exam, saying it was drawn up by a committee of experts from the Indian Statistical Institute, IIT Delhi, and Delhi University.

### What is 'normalisation'?

The CUET-UG was held on multiple dates and multiple sessions between July 15 and August 30. As a result, there were different

sets of question papers for every subject. Naturally, there were variations in the level of difficulty of question papers on the same subject. Moreover, in the case of CUET-UG, there were apprehensions that those taking the test in the initial set of dates may not be able to meet the performance level of candidates who appeared in dates fixed in August. The normalisation formula is supposed to address these concerns by ensuring that candidates are neither benefitted nor disadvantaged due to any such factor.

#### Is this method applied in the case of all entrances?

Yes, normalisation is used to compare the performances of students on a common scale even in the case of entrances such as JEE Main (engineering). However, there is a difference. In the case of JEE Main, the percentile scores are normalised. Before going further, we need to know what a percentile is. Simply put, percentile denotes the relative performance of a candidate compared to those who took the test in the same session. A 100 percentile indicates that 100%

### Candidates line up for the CUET exam at a Pune college. Express

candidates of a particular session have scored equal to or less than the topper. A student with a percentile score of 70 would indicate that she has scored more than 70% of the candidates of her session.

#### How is CUET-UG different?

In the case of JEE Main, the raw marks

obtained by the students are first transformed into a scale ranging from 0 to 100 for each session of examinees. As a result, the toppers of two different sessions may have different raw scores, but both their percentile scores will be 100. The same applies to each category of percentile. But in the case of CUET-UG, raw scores are con-

verted into percentile scores and then into normalised scores. But universities will consider only the normalised raw score while preparing merit lists. This method has been shown to be accurate for estimating normalised marks of candidates when the tests are held in multiple sessions with varying difficulty levels in a given subject, according to the NTA.

#### What is the mathematical formula used for a normalised percentile?

To calculate the normalised percentile score of a candidate, three variables are required: the raw score of the candidate (A), the total number of candidates with a score equal to or less than her raw score (B), and the total number of candidates in that particular session (C). The mathematical formula applied is B divided by C multiplied by 100. For example, take the case of a student who appears in a session with 41,326 other candidates. Say, she obtains 121 marks, scoring more than 37,244 other candidates of her session. Her normalised percentile score will be 37,244/41,326X100, which comes to 90.1224411. Percentile scores will be calculated up to 7 decimal places.

#### And what is the formula to calculate a normalised raw score?

In tabulating the marks, the NTA first sorted the candidates in a descending order based on their percentile scores first. Then the raw marks of the students were listed against their percentiles. A third metric called 'interpolated mark' was calculated for each candidate using a method called linear interpolation. To understand its meaning, consider a person covering a certain distance at a uniform pace. Now, through linear interpolation one can find out the possible time that she would take to cover one third of the distance (or two third or any other length of the total distance). This mathematical concept was applied to find the interpolated marks for every student, assuming that every student appeared in the same paper twice. Their actual raw marks were then divided by the interpolated marks, and the normalised marks arrived at.

# SPORT/CALENDAR 21

### Indian football reboots, to play Singapore in friendly today

### **EXPRESS NEWS SERVICE** SEPTEMBER 23

AFTER MONTHS of federation politics, allegations and counter-allegations, uncertainty over the future of the chief coach and the risk of being an international pariah, the Indian football team will return to action on Saturday when they take on Singapore in a three-nation friendly tournament in Ho Chi Minh City.

Since May, the focus in Indian football has largely been on off-field affairs given the goings-on within the All India Football Federation. But with a new body now in place, and the technical committee extending the contract of coach Igor Stimac until the end of the Asian Cup, India can finally start its preparation for next year's continental championship.

But it begins in a far-from-ideal situation. Even though most of the players have had a proper pre-season with their clubs, India go into the match against Singapore slightly under-cooked, having had just one full training session under Stimac before heading to Vietnam. To add to their problems, defenders Sandesh Jhingan and Chinglensana Singh are unlikely to be available for selection against Singapore.

The two didn't accompany the team due to travel document-related issues and only boarded a 3 am flight on Friday. Stimac is likely to rest Jhingan, a key centre-back, on Saturday and start him against Vietnam, a team that reached the quarter-finals of the 2019 Asian Cup, on Tuesday

India last played Singapore 10 years ago and although Stimac was confident of winning the game, he was cautious and underlined the progress the South East Asian side has made in the last few years.

"Singapore has made big progress in recent years. They have a new coach, who has made some changes in the system that often makes things difficult for the opponents. But I will tell my players to play confidently against them and show what exactly we have in store for them," Stimac said.

Singapore, he added, are good "especially in the high- pressing area", which could be a problem for India as Stimac conceded that his team's fitness at the moment isn't as good as their opponents'. "(But) I think that we have enough players with technical ability who can find a way to escape from such high press, and with many players in the middle making it tight and difficult. But we are going to find spaces on the weak positions and play as per our plan," Stimac said.

Playing tonight: India vs Singapore, 5.30pm, Live on Eurosport

#### **MIHIR VASAVDA** SEPTEMBER 23

SOURAV GANGULY, Kalyan Chaubey and now Dilip Tirkey.

Since Independence, India's top three team sports have almost always been governed by politicians or administrators. But now, for the first time, the domestic governing bodies for cricket, football and hockey will be simultaneously headed by former players. This, after former India captain Tirkey on Friday became the new Hockey India president without the federation requiring to hold elections.

With the promise of ensuring "Indian hockey reaches new heights,"Tirkey was left as the sole candidate for the president's post after the two other contestants, Uttar Pradesh's Rakesh Katiyal and Jharkhand's Bhola Nath Singh, withdrew their nominations on Friday.

As per Hockey India's election by laws, if the number of contesting candidates for any post turned out to be equal to or less than the number of posts, they would be deemed to have been elected unopposed. And so, not just Tirkey, the entire new committee that will run the game until 2026 was elected unopposed, with Bhola Nath being the new secretary-general. Tirkey's rise from being a shy teenager to a calm, sure-footed defender before becoming India captain, then turning to politics and sports administration post-retirement before eventually heading the national hockey body is nothing short of remarkable. His election as the president assumes even more significance given that in 97 years of organised hockey administration in India, there has never been a time when an international player has headed the sport. "I understand that because of this, my election as the president is important. I know I am the right person for this job," Tirkey, a former BJD MP and the chief of the Odisha hockey federation, told *The Indian Express* on Friday.

The 44-year-old's election also underlines the growing influence of Odisha in hockey. The coastal state, since 2014, has been the nerve centre of not just the Indian but the world game. One of the cradles of Indian hockey, Odisha is among the key backers, financially, of the national teams, is one of the main sponsors of world hockey and has hosted major international tournaments at Bhubaneswar's Kalinga Stadium routinely over the last eight vears

With Tirkey at the helm, Odisha's stature in Indian hockey will only get higher, especially with the World Cup-which will be co-hosted in Bhubaneswar and Rourkela - just around the corner. Tirkey credited Odisha chief minister Naveen Patnaik's 'contribution to hockey for his election. "People saw the kind of work the state has put in for hockey in the last few

Dilip Tirkey takes over Indian hockey at a critical stage.

### The 44-year-old's election also underlines the growing influence of Odisha in hockey. The coastal state, since 2014, has been the nerve centre of not just the Indian but the world game.

Tirkey latest ex-player in top job, becomes HI president

years, be it constructing a world-class stadium or hosting tournaments. In Indian hockey, Odisha has delivered and that, I feel, has worked in my favour in a way," the 45-yearold said

### Road ahead

One can sense the thrill in Tirkey's voice and he already is teeming with ideas. The World Cup, to be held from January 13-29, 2023, will be among Tirkey's top priorities, but his challenges go much beyond the fortnightlong tournament. Tirkey takes over Indian hockey at a critical stage. After years of decline, the men's team has started to show signs of resurgence under Australian coach Graham Reid while the women, although relatively inconsistent, have punched above their weight in the last year and a half.

For the senior national teams, he identified goalkeeping and drag-flicking as two aspects where there's scope for improvement. "These are two very important roles in modern hockey and right now, do we have enough quality

players after PR Sreejesh or Harmanpreet Singh? We need to identify areas like these where we can improve and plug those gaps so we can actually reach the top.'

His focus, however, is already beyond the national team. "We have a huge volume of players at sub-junior and junior levels. So, the challenge for us is to identify the right players, focus on quality, not quantity, give them the right kind of coaching and prepare a proper pathway for them to develop a career in hockey. It's about getting a system in place right from the sub-junior level to the national team.

Tirkey also spoke about the need to revive some of the traditional hockey belts where the game has gone off the radar. For that, he might have to ensure international matches - which are one of the ways to popularise the sport - are spread across the country and not restricted only to Odisha, as has been the case in recent years. In a sport where some of the recent presidents have been accused of being mere rubber stamps, how Tirkey performs and delivers will be keenly observed.

Other than Ganguly, Chaubey and Tirkey, former track and field athlete Adille Sumariwalla is the president of the Athletics Federation of India, meaning four important federations are now headed by former sportspersons.

"To be honest, I never thought these many sportspersons would govern important federations," Tirkey said. "But well, it has happened. Now, it's time to work."

## Rahane's advice helps Jaiswal to double ton

#### **DEVENDRA PANDEY** MUMBAI, SEPTEMBER 23

"THE WORDS are still fresh. I have kept them close to my heart. Ajju bhai (Ajinkya Rahane) once told me that to play a long innings, start with small goals. Keep targets of five runs each, don't play anything rash and most importantly, just stay there. To win a big battle, I need to stay at the crease and runs will surely come. A good ball may take your wicket, but you don't give any chance."

Yashasvi Jaiswal recalls the words of wisdom he received during the first game of this season's Duleep Trophy while batting with Rahane, who is captaining West Zone. At 20, the Mumbai opener has been in a rich vein of form. His unbeaten 209 runs against South Zone in a tight final at Coimbatore, is his second double hundred in two weeks.

Jaiswal had come from a healthy Ranji Trophy season where he had scores of 35, 103, 100, 181, 78 and 1 for Mumbai. In six first-class games since June, he has amassed 938 runs. For a boy who looked perfectly suited to white-ball cricket, the left-hander has learnt the craft of playing a long innings

"I just went and asked Ajju bhai how he played those big innings and how I should go about it? There are many who score hundreds but how to score big hundreds? He listened to me and said I need to start following the process. To get the whole khadoos (stubborn) thing in my batting, I need to be calm. Respect the bowler if he is bowling well. Pick the bowlers to score runs and wait for the right moment Believe in my process and be disciplined,' Jaiswal narrates. He describes how South Zone kept a deep point fielder and left-arm spinner Sai Kishore wanted him to play the cut shot, but Rahane advised him not to as

the pitch had uneven bounce. "I didn't play the cut shot in that particular session and when Kishore gave it up and had to change his strategy, it was then that I began to play my shots. I'm very happy with the way I'm batting. I always wanted to perform on the big stage and scoring in the Duleep Trophy final gives a special feeling, especially when it's hard to predict the pitch," he explained.

South Zone had taken a 57-run first innings lead and if West Zone needed to stay in the game, their top order needed to come to the party.

Jaiswal's innings enabled West Zone post 376 for 3 by stumps on the third day. His innings came off 244 balls with the help of 23 fours and three sixes. At close, West Zone led by 319 runs. Jaiswal added 169 runs for the third wicket with Shreyas

Yashasvi Jaiswal scored unbeaten 209.

Jaiswal had come from a healthy Ranji Trophy season where he had scores of 35, 103, 100, 181, 78 and 1 for Mumbai. In six firstclass games since lune, he has amassed 938 runs. For a boy who looked perfectly suited to whiteball cricket, the left-hander has learnt the craft of playing a long innings.

Iyer and 58 in the unbroken fourth-wicket stand with Sarfaraz Khan.

Jaiswal says he has been picking points from everyone to improve his game. He spoke with Sarfaraz and tried to understand what it took to build an inning after getting a good start. To keep that same focus and same intensity can be a big task for any batsman.

"I'm in the right frame of mind. I have taken each game as it comes and not thought too far ahead. It is very important for a cricketer to remain in the present. What I have scored is in the past now and to be relevant, I need to keep scoring these big runs on a regular basis," he added.

Brief Scores: West Zone 270 (Patel 98: Sai Kishore 5-86) and 376 for 3 (Jaiswal 209\*, Iyer 71, Sai Kishore 2-100) lead South Zone 327 (Indrajith 118, Unadkat 4-52) by 319 runs.

you to accept certain terms or arrangements that are not entirely to your liking. However, there is plenty of room for negotiation and partners will be happy to modify their plans if asked. All you have to do is find the right way to approach them

### GEMINI (May 22 - June 21)

News received from an unexpected source may make your weekend. However, the only real shocks may arise from the spiralling costs of your social plans, or from other very necessary spending. Actually, it's a useful moment for pinning down partners and sorting out family finances.

### CANCER (June 22 - July 23)

Once you decide that enough is enough you can display a determination that belies your usual accommodating reputation. If you feel ignored and side-lined, then don't worry: before very much longer, partners will be deeply impressed by your amazing achievements.

#### LEO (July 24 - Aug 23)

Your caring and loyal nature is not in doubt. However, you must live up to other people's image of you if you are not to let them down. It is you who is in control at home, so you may have to shoulder more responsibility than usual. But that's no bad thing.

#### VIRGO (Aug 24 - Sep 23)

There is nothing wrong with selfinterest, but you are now afforded a tremendous opportunity to

show just how utterly selfless you can be when the circumstances are right. It's time to exercise your charitable instincts, doing your valuable bit for the big, that's nothing new. wide world.

perfect opportunity

to confess your real feelings. This may mean apologising to one particular person, or telling someone else that you love them. You owe such honesty to yourself, and you might find that the consequences are much to your liking.

#### SAGITTARIUS (Nov 24 - Dec 22)

You have studied the information, facts and figures but what is really important is how you feel about particular people or individual issues. Act in accordance with your instincts and hunches, and you may open doors and shed new light on an old problem.

### CAPRICORN (Dec 23 - Jan 20)

Certain associates seem to believe that they can pull the wool over your eyes. However, gullible as you may be over some things, you are well aware of the true situation and how to make the most of your resources. These people will be surprised when you stand up for yourself.

### AQUARIUS (Jan 21- Feb 19)

In many respects this is a peculiar phase for emotional and family ties, but there may be nothing unusual about this. If you want a peaceful day you must take other people's wishes fully into account. Otherwise, they'll badger and bamboozle you until you do.

### PISCES (Feb 20 - Mar 20)

No, I don't have any regrets. I mean, I do feel sad that I wasn't able to play, but, you know, that was decision that I made. I knew what the consequences will be, so I accepted them. That's it."

NOVAK DJOKOVIC, ON MISSING SLAMS DUE TO UNVACCINATED STATUS

### Jhulan, pace spearhead and bridge between generations, bids adieu

### **SHAMIK CHAKRABARTY** KOLKATA, SEPTEMBER 23

INTHE 1997 women's World Cup final at Eden Gardens Jhulan Goswami was a ball girl and was wowed by Australian seamer Cathryn Fitzpatrick's pace and movement. After that final, the Diego Maradona fan made up her mind about wanting to play for India one day. two-and-a-half About

decades down the line, as Jhulan is set to play her final game for India. she has been accorded a rare honour that eluded even the likes of Rahul Dravid and VVS Laxman retiring on the field and plaving the farewell game at the Mecca of cricket. The third ODI between England Women and India Women at Lord's on Saturday would be Jhulan's last. She leaves the international scene as the highest wicket-taker across formats in women's internationals -353 and one more chance to add to the tally tomorrow. An international career that began in January 2002 revelled in its consistency. But more importantly, along with Mithali Raj, who bade adieu to the game earlier this year, Jhulan acted as a bridge between a generation that had to fight indifference towards women's cricket and the present generation of the Smriti Mandhanas, when women's cricket attracts global eyeballs, commercial space and sponsors.

When Jhulan started. women's cricket wasn't under the BCCI umbrella. Things have changed enough for the BCCI to finally start a women's IPL in 2023. There was no surprise that

Ihulan's final pre-game press conference in India colours, held virtually, was very well attended. She was the biggest story in Indian cricket today, trumping the second men's T20I between India and Australia at Nagpur. The 39vear-old spoke from the heart. There had been a few injuries over the last two-three years. Jhulan fought them and at times played through the pain. Eventually,

#### Ihulan Goswami is the highest wicket-taker across formats in women's internationals - 353.

BCCI

though, Father Time held sway. 'For the last two years, I was thinking every series could be my last, especially with Covid-19 postponing cricket to 2021. I was going through a lot of injuries. I was taking it series by series. After the (2022 ODI) World Cup I thought maybe the tour to Sri Lanka would be my last. But during the World Cup, I got injured and I wasn't fit enough to tour Sri Lanka," Jhulan said at the presser, adding: "This is the last ODI series before the T20 World Cup and so I thought I will go to the NCA, do a lot of rehab, and come to England for my last series."

The glittering career has one close to achieving the crowning glory, in 2005 and then in 2017, when India stumbled on the final hurdle. The 2017 final at Lord's was a painful memory, her team going down by nine runs - so near and yet so far.

"If we would have won one of those, it would have been great for Team India and women's cricket. That's the ultimate goal for every athlete. When you put in so much hard work, you prepare for four years and if you win the trophy, it's a dream come true. Unfortunately we played three finals including T20 (the 2020 World Cup) but weren't able to win the final. It has hurt feelings and that is one re-

### gret," she said.

If Ranchi boy MS Dhoni had an untold story, Jhulan's 20-year journey in international cricket, too, deserved a biopic. Chakda Xpress is in the making, which would go back to the roots of the Chakdaha girl – taking the first train from the district town about 80 kilometres off Kolkata to come to the maidan for training. Jhulan always wanted to bowl fast and at her peak, she clocked

130kph-plus. "When I started, I never thought about playing for so long. Those days we used to represent (Women's Cricket WCAI Association of India), and since

2006 we (have been) in the um-

brella of the BCCI. I used to under-

take a two-and-a-half-hour oneway train journey from Chakdaha, practice and go back home and day. Of course, the best memory was when I represented India; getting my India cap from my captain (Anjum Chopra) and bowling was the most important moment in my life," Ihulan said. the 1997 Women's World Cup, I saw the final at Eden Gardens between Australia and New Zealand.

void, and not winning a World Cup hurts. Twice Jhulan came

nets and calling Jhulan a stalwart. "I think she is one of India's stalwarts in terms of what she has done for the country," Rohit had said. When Jhulan started, women's cricket in India barely had any future. Now the future is bright. But will she be a part of the razzmatazz? "Let that (Women's IPL) announcement happen officially, and then I will decide," Ihulan signed off.

# India win rapid-fire game

Rohit's unbeaten 46 in 20 balls helps chase down 91 in an eight-over-a-side match and level series

### SHAMIK CHAKRABARTY SEPTEMBER 24

RIDING ON Rohit Sharma's cultured blitz, India got back to winning ways. They were running away with the game when legspinner Adam Zampa intervened with the wickets of Virat Kohli and Survakumar Yadav in successive deliveries. Suddenly the asking rate started to climb.

the hosts required 14 off seven balls, on the heels of Hardik Pandya's dismissal. But Rohit played a classy - he oozed class throughout - cut shot for a four against Pat Cummins to bring the equation down to 10 runs off the final over. Dinesh Karthik sealed the deal in the first two balls from Daniel Sams, hitting a six followed by a four. Chasing 91 for victory in a truncated game, India won by six wickets with four balls to spare to level the three-match series. The warm embrace that Karthik received from his captain had relief written all over it.

An eight-over-a-side game is never a proper contest in any format. It's a lottery, but India ran the risk of suffering their fourth defeat in five T20Is - against Pakistan and Sri Lanka at the Asia Cup and against Australia in the first match here - which still probably would have sharpened the critics' knives. From that perspective, the win, where Rohit's batting and fit-again Jasprit Bumrah's searing yorkers were serious positives, brought welcome relief. It rained heavily in Nagpur on Thursday evening and the outfield was wet, delaying the start by two-and-a-half hours. When the game began, some areas near the boundary rope still looked soggy and the

Calling the game off might have been a more pragmatic decision, but credit to both sets of players who agreed to play. There's a World Cup a month down the line and any injury could be catastrophic. But the fans had started to fill the stadium since five o'clock in the

fielders treaded carefully.

Rohit Sharma hit four boundaries and as many sixes in his unbeaten 46 to guide India to a six-wicket win.

evening and their sentiments were honoured.

When the game started, the pitch played slow and the ball didn't bounce much. Axar Patel used his arm-balls to make early inroads, after Cameron Green was run-out via an excellent Kohli throw. Axar castled the dangerous Glenn Maxwell in that over with an armer. The ball angled in, with the batsman making room and attempting to slog. But it kept low and Maxwell played over the delivery.

Another armer from Axar accounted for Tim David; once again the ball keeping low and the batsman failing to connect.

Bumrah was brought into the attack in the fifth over and his first ball was a loosener. By the time the fast bowler was running in to bowl his final delivery of the over, he was firing on all cylinders. Aaron Finch got almost an unplayable yorker and was bowled neck and crop. In his comeback game, Bumrah didn't take much time to hit his stride. India's best bowler had been sorely missed. "It was good to see Bumrah on the park. Slowly and steadily he is coming back into his rhythm," Rohit said at the post-game presentation.

Bumrah's second over was a bit expensive – a couple of fours had been accounted for. But it still had a superb yorker, which Steve Smith somehow managed to dig out. Over the last few games, Bhuvneshwar Kumar had been the team management's preferred choice to bowl the penultimate over, at the cost of a few defeats. Today, the medium pacer was dropped and Bumrah came on in his place, which expectedly made a difference.

Australia still finished well

with a 19-run over, the in-form Matthew Wade taking Harshal Patel to the cleaners, hitting three sixes. The southpaw topscored for his side with an unbeaten 43 off 20 balls. For India, Axar returned with the meanest figures -2/13 from two overs. Irrespective of formats, Rohit

prefers to get his eye in before opening up. In this game, however, he didn't have that leeway and it helped his team's cause. The first six off Josh Hazlewood was a wallop over deep midwicket and the next one was a gorgeous pull over deep-square. Cummins attempted a

slower bouncer, but Rohit hooked it over the fence. He was killing the opposition bowling with lazy elegance. The six against Zampa, an inside-out lofted drive over wide long-off, was spectacular, at a time when KL Rahul was struggling to force the pace against the slower deliveries. In a shortened game, Rishabh Pant as Rohit's opening partner probably would have been a better choice.

A Zampa googly cleaned up Rahul and Kohli departed after showing flashes of brilliance. The leg-spinner trapped Surya leg-before in the very next ball to return with 3/16 from two overs. From India's point of view, it was imperative to release the pressure and Rohit's back-toback fours against Sean Abbott had been timely.

The skipper refused to surrender the initiative, scoring 46 not out off 20 balls and walking away with the Man of the Match award.

**Brief scores:** Australia 90 for 5 (Wade 43<sup>\*</sup>, Finch 31, Axar 2-13) lost by by six wickets to India 92 for 4 (Rohit 46\*, Zampa 3-16)

Brook, Duckett help

**England bounce back** 

#### ASSOCIATED PRESS **KARACHI, SEPTEMBER 23**

HARRY BROOK and Ben Duckett bludgeoned maiden Twentv20 half-centuries as England bounced back to beat Pakistan by 63 runs on Friday.Brook smashed 81 off 35 balls and lefthander Duckett made 69 off 42 deliveries as England racked up

221-3 after losing the toss. Pakistan's top order crumbled against fast bowlers Mark Wood and Reece Topley and finished on 158-8 a day after chasing down 199.Wood picked up 3-24 and Reece took 1-22 in their first game of the series as England brought them in for David Willey and Luke Wood.

England leads the series 2-1 with four more games to go. They go again in Karachi on Sunday.Captain Babar Azam and Mohammad Rizwan couldn't repeat their Thursday night heroics when they led Pakistan to a 10-wicket win with a brilliant double-century stand.Both batters scored eight runs each be-

fore Wood had Babar caught at third man in the third over, and Topley clean-bowled Rizwan with a brilliant slower ball.

Left-hander Shan Masood, who made his T20 debut in the first game, top-scored with an unbeaten 65 off 40 balls but Pakistan always lagged well behind once it lost Babar and Rizwan.Brook smashed the Pakistan pacers in the latter half of the innings while Duckett was excellent against the spinners. Brook punished Shahnawaz Dahani (0-62) for boundaries at will in the death overs as the fast bowler returned with Pakistan's second most expensive figures in a T20.

Brief scores: England 221 for 3 (Brook 81<sup>\*</sup>, Duckett 70<sup>\*</sup>) beat Pakistan 158 for 8 (Masood 65\*, Wood 3-24) by 63 runs

"A man accessed the court

London: Play was briefly halted when a man ran on court and set his arm on fire during a Laver Cup match at London's O2 Arena on Friday.

The man, protesting about the use of private jets in Britain, sat down and lit a substance on his arm during the match between Stefanos Tsitsipas and Diego Schwartzman.

Security personnel acted quickly to drag the man off the court before play resumed following a quick check to make sure the court surface had not been damaged.

this afternoon and was promptly removed by security," a Laver Cup official said. 'Play was stopped briefly, he has been arrested and the situation is being handled by the police."The man. who made his protest during the second set of the match, wore a T-shirt with

the slogan "End UK Private Jets". British media reported that he was a member of the End UK Private Jets group, which claims "carbon emissions in 2022 are genocide." REUTERS

### **PAVEL POLITYUK** KYIV, SEPTEMBER 23

RUSSIA BEGAN referendums on Friday aimed at annexing four occupied regions of Ukraine, raising the stakes of the sevenmonth-old war in what Kyiv called an illegal sham that saw residents threatened with punishment if they did not vote. The votes on whether the re-

gions should become part of Russia began after Ukraine earlier this month recaptured large swathes of northeastern territory and Russian President Vladimir Putin, this week, announced a military draft to enlist 300,000 troops to fight in Ukraine. Voting in the provinces of

Luhansk, Donetsk, Kherson and Zaporizhzhia, representing about 15% of Ukrainian territory, is due to run from Friday to Tuesday. Serhiy Gaidai, Ukraine's

Luhansk region governor, said that in Starobilsk town. Russian authorities banned people from leaving the city until Tuesday and armed groups had been sent to search homes and coerce people to vote. "Today, the best thing for the people of Kherson would be not to open their doors," said Yuriy Sobolevsky, the displaced Ukrainian first deputy chairman

of the Kherson regional council, said on Telegram. The referendums have been condemned by Ukraine, Western

leaders and the UN an illegitimate,

### **UNITED STATES** Sheriff to pay \$15 mn for teen's death

Akbar Khan Mosque. PTI

A FLORIDA sheriff has been ordered by a jury to pay USD 15 million to the parents of a teenager who died while trying to cross a highway after being kicked out of the state fair by deputies. Andrew Joseph III, a Black 14-yearold, was killed in 2014 after he was booted from the Florida State Fair following a disturbance involving several teenagers. jury found The Chronister's department 90% responsible for the child's death, with Joseph assigned 10%. The money will be split evenly between his parents Andrew Joseph Jr. and Deanna Joseph. AP

mounting economic desperation has led many to board often rickety and overcrowded boats in the hope of reaching Europe.

The Syrian transport ministry has quoted survivors as saying the boat left from Lebanon's northern Minyeh region on Tuesday with between 120 and 150 people onboard, bound for Europe.

Lebanese transport minister Ali Hamiye said 20 survivors were being treated in Syrian hospitals. the bulk of them Syrians - around 1 million of whom live in Lebanon as refugees

### Iran: State-organised marchers call for execution of protesters

### REUTERS DUBAI, SEPTEMBER 23

STATE-ORGANISED demonstrations took place in several Iranian cities on Friday to counter antigovernment protests triggered by the death of a woman in police custody, with marchers calling for

the execution of protesters. The demonstrations followed the strongest warning from the authorities yet when the Army told Iranians it would confront "the enemies" behind the unrest a move that could signal the kind of crackdown that has

Demonstrators condemned the anti-government protesters as 'Israel's soldiers", live state television coverage showed. They also shouted "Death to America" and "Death to Israel". "Offenders of the Koran must be executed," the crowds chanted.

crushed protests in the past.

Iranians have held mass protests over the death of Mahsa Amini, 22, last week after her arrest by the morality police for wearing "unsuitable attire".

Amini's death has reignited anger over issues including restrictions on personal freedoms in Iran, strict dress codes for

women and an economy reeling from sanctions.

The Army's message, seen as a warning to protesters enraged by the death, read: "These desperate actions are part of the evil strategy of the enemy to weaken the Islamic regime." The military said it would "confront the enemies' various plots in order to ensure security for the people who are be-

ing unjustly assaulted.' Intelligence Minister Mahmoud Alavi also on Friday warned "seditionists" their "dream of defeating the great achievements of the revolution will never be realised."

Muharram and Safar and hence is "a matter of respect". "I very politely declined on behalf of myself and CNN, and

as it was the months of

female journalists everywhere because it is not a requirement", Amanpour was quoted as saving by CNN.

Amanpour, 64, who grew up in Tehran said she often wears a head scarf while reporting in Iran to comply with the country's laws but she could not cover her head to interview an Iranian official outside a country where there is no such compulsion.

### **ONE OF BRITAIN'S MOST DECORATED NOVELISTS, SHE HAD TWICE WON THE BOOKER PRIZE** Hilary Mantel, author 'who felt things that ordinary mortals missed', dies at 70

AP

#### **KYLIE MACLELLAN** LONDON, SEPTEMBER 23

HILARY MANTEL, the best-selling British author of the awardwinning "Wolf Hall" Tudor trilogy, died peacefully on Thursday at the age of 70, her publisher said on Friday.

"Wolf Hall", published in 2009, and its sequel "Bring Up the Bodies", released three years later, both won the Booker Prize, an unprecedented win for two books in the same trilogy and making Mantel the first woman to win the award twice.

The final in the series, "The

Mirror & the Light", was published in March 2020 and long-listed for the Booker Prize. It won the Walter Scott Prize for Historical Fiction in 2021, an award she also

won for "Wolf Hall". "It is with great sadness that HarperCollins announces that bestselling author Dame Hilary Mantel DBE died peacefully, surrounded by close family and friends, yesterday," a statement on the website of her publisher 4th Estate Books, which is

owned by HarperCollins, said. "Hilary Mantel will always be remembered as a truly original writer. She leaves behind a remarkable body of work which in-

spires readers around the world."

The "Wolf Hall" trilogy, which has been serialised by the BBC and was also adapted for the stage, charted the fortunes of Thomas Cromwell, the blacksmith's son who rose to be King Henry VIII's most powerful adviser only to fall from grace and meet a gruesome end.

Other best-selling authors took to Twitter to express their sadness at the news of her death, with Harry Potter author JK Rowling saying: "We've lost a genius".

Fellow Booker Prize winning author Bernardine Evaristo said: "So very sorry to hear about

Hilary Mantel's passing. We were so lucky to have such a massive talent in our midst."

Born in Derbyshire on July 6, 1952, Mantel studied Law at the London School of Economics and Sheffield University and first worked as a social worker. She turned to writing fiction while living in Botswana for five years.

Mantel also lived in Saudi Arabia, returning to Britain in the mid-1980s. Her first novel, "Every Day is Mother's Day", was published in 1985.

In total she authored 17 books, including non-fiction work, and was awarded a damehood in 2014 for services to literature.

New Delhi

"It is impossible to overstate the significance of the literary legacy Hilary Mantel leaves behind. Her brilliant Wolf Hall trilogy was the crowning achievement in an outstanding body of

work," Scottish First Minister Nicola Sturgeon said on Twitter. Mantel drew criticism from many, including then PM David

Cameron, in 2013 for comments in which she described Prince William's then pregnant wife Kate as "a jointed doll on which certain rags are hung".

"She was a shop-window mannequin, with no personality of her own, entirely defined by what she wore," Mantel had said

in a lecture at the British Museum in London.

Her agent, Bill Hamilton at AM HEATH, said she had dealt with her health problems "courageously" and it had been a privilege to work with her.

"Her biting wit, stylistic daring, creative ambition and phenomenal historical insight mark her out as one of the greatest novelists of our time," he said.

"There was always a slight aura of otherworldliness about her, as she saw and felt things us ordinary mortals missed, but when she perceived the need for confrontation she would fearlessly go into battle." REUTERS
